To the Honble. George Morton Pitt Esqr.
Presid^{t}. & Govr. &c^{a}. Council of Fort S^{t}. George.

Honble. Sir & Sirs

Having in Obedience to your Orders perused and examined the Papers and Books received from Fort Marlbrô ℔ Ship George and Madrass Galley, we Shall now offer what Remarks we have made thereon, Under the heads Usuall in the General Letters.

First Shipping.

In the 7th. Parr. of the Deputy Govr. and Councils Letter ℔ George they desire the Directions of this Board, whether in Case they should not be able at any time to Compleat the Tonnage of the Ship for Europe within twenty or thirty Tons, they should send her hither to be filled up, with a Growing Demorage or dispatch her directly from thence to Europe notwithstanding she may want so much of her Tonnage. We Compute that it will take up at least three Months from her leaving that Port to the time of her being filled up here, and sent away, by which it Appears that her Demorage will be at least equal to the Freight, and it may happen that her Arrival here may be so late as to not allow of her Dispatch for Europe in the Season, when the difference must be very Considerable, whereas her Dispatch from thence directly will permit her an early Arrival in Europe, and the Advantages Accruing thereby.

——*FORT ST. GEORGE, JANUARY 1732-33*——

The very Long Passages the Ships from the West Coast have met with of Late, and the Great Expences our Honble. Masters have been put to thereby, as well as the Disappointment to that Settlement of their frequent returns to them, is what we presume ought to be taken into Particular Consideration, and a remedy found out if Possible to prevent it, as it has so happened for these Several years past that the Gentlemen there have not been Able to dispatch the Ship from thence till the Month of January and this Last Year in February, the going up the Coast seems to have been the Cause of their long Passage, and Often proves fatal to the lives of the People, as it has particularly done this Year, wherefore we are of Opinion the most probable method for the Ships to make better Passages will be to dispatch her from hence in the Month of January, at that time of the Year it will take up at farthest Six weeks, and Allowing one Month or there about to unload and refresh her people, She may return to this port by the 1st. of June; and again proceed in July and be dispatched from thence Some time in October going up the Coast or proceeding by the way of the Streights of Sunda and Drian which Latter is the Passage the Dutch Ships from Batavia use in their Voyage to the Coast and Bengal at that Season, and the Passage from Marlbrô to Batavia is then about Seven days, but if by any Accident the Gentlemen there Cannot dispatch the Ships before the Month of January then we think the Commanders should have Orders to go to the Southward, and not trust to a Passage up the Coast, which has by Experience been found to be Attended with Such ill Success, this we Esteem it our duty to lay before your Hon^r^. &c^a^. in Order for Your Determination.

As M^r^. Newcomes Sloop and Boat were Absolutely Necessary for the Service of the Port, we thin[k] the Purchasing them to be very Right, as Also the design of Procuring a Number of Boats to be Always in Readyness to fetch the Pepper from the Several Quallos in Order to have it ready for Shipping, likewise the Agreement made with M^r^. Savage for the hire of his boats.

The Planks for the Boats not having been sent from Pegue have prevented the Compleating of the two boats whose frames were sent on the George, which they desire may be put on board the first dispatched, and the Lascars that shall be thought Necessary to Compleat the number to be allowed for the service in them.

SECONDLY GOODS FROM EUROPE OR FORT S^T^. GEORGE.

The people in Anacksoongay having formerly Contracted with the Company to have half money, and the other half in white Long Cloth in Exchange for their pepper, they desier the full quantity Indented for may be sent them, in Order to Comply with that Agreement.

The Jaggery sent them on the Galley being in Bags has Occasion'd a wast, and therefore they desier it may be put in Jars in future.

THIRDLY INVESTMENT.

FOURTHLY COUNTRY GOVERNMENT.

They advise the Country Continues in the Same peace as it has for Some Years past and is in a flourishing Condition, which gives a good prospect of the Company's having a quantity of Pepper Yearly out of it, the bringing it from the several Quallos, and paying the People there, as some time since proposed and directed, fully Answers expectation, and is a very great ease, and also an encouragement to the people to be Industrious, which Method it is highly Necessary to Continue.

We Observe there are Several sums paid on Account of Persons going to receive pepper at the Quallos, great care should be taken that these Charges should be keept within proper Bounds, or else it will Considerably raise the price of the Pepper, it is impossible for us to Judge what may be the Necessary Allowances on that Account or how long time the person sent may be on that service, that must be left to the direction of the Gentlemen there who we doubt not will have due regard to the Companys Interest, and put them to no Charge that can be avoided well Considering the Consequences of a dear Investment to them.

——*FORT ST. GEORGE, JANUARY 1733-33*——

In paragraphs 26 & 27 of their Letter ℔ George mention is made of the Price of Coffee in Java by which it Appears that at 30 thirty Spanish Dollars ℔ Bahar the Price Agreed on with Dupatty Abdull Momon, it is near twice as much as that in Java, this they Acquaint Your Hon^r. &c^a. is so large a Price and so great an Incouragement, that they are Apprehensive it will Occasion the Melays to Neglect their Pepper Plantations because Coffee can be raised with Less trouble and Charge and will at that rate bring them a more Considerable reward for their Labour than Pepper, we represented to Your Hon^r. &c^a. in our report last Year, much to the same purpose, when it was determin'd that the Price of thirty Dollars ℔ Bahar Agreed on by the then Deputy Govr. & Council, should only Continue for five Years to Commence from the date of the engagement with him, and that no one on this Account should Neglect his pepper Plantation, this large price was design'd as an encouragement only for persons, to endeavour the bringing it to Perfection, and has been practised by the French in the Southern Islands, but was not to Continue as a standing price for the Produce of their lands after that Term, It does not Appear how Dupatty Abdull Momen has succeeded, but we find the Gentlemen there have since Agreed with Dupatty Battoo Rajah of Laye for 10 ℔ Bahar (the same Price as Pepper) which we think is very Reasonable and if attended with success may engage others in the same work and prove of Great benefit to our Honble. Masters, we shall here lay before your Hon^r. &c^a. an Account, shewing the Value of Pepper and Coffee in Europe by which it will Appear that from the latter Article, is likely to proceed a much Greater profit than from pepper.

By this Your Hon^r. &c^a. will Observe the Importance of Cultivating and improving the Growth of Coffee on the West Coast and if you will be pleased to write to the Cheif of Mocha to Procure a Quantity of seeds, to send thither, to set this work forwarder and Proper directions to the Gentlemen to encourage the Planters, we doubt not but it will prove of Great service to Our Honble Masters and at the same time we can't find it may Occasion any hindrance to the Pepper Plantations, Since its Judged the Places proper for the Coffee Trees to be planted and Thrive in will not do for the Pepper vines.

By the Representation of the State of the Sugar and Arrack plantation we find the Ordinary Charges since the Allowance to M^r. Hawk[es] are at least 110 Dollars ℔ Month besides Extraordinary, for Purchasing Buffaloes & Utensals, which one or

—*FORT ST. GEORGE, JANUARY 1732-33*—

other, happens almost every Month, and Cloathing deliver'd the Slaves & Debtors, which amounts to about 140 Doll^rs. The Greatest Quantity of Arrack and Sugar made in a Month, we find is five Leagures and four Peculs of Sugar both Amounting to $ 136 thô for some time there are Only three Leaguers of Arrack & no Sugar, the Medium may be Computed at four Leaguers Arrack and two Peculs of Sugar, which comes to Dollars 104, the Loss on Slaves, Debtors &c^a. dead stock or run away in one Year as ℔ Books K is Doll^rs. 170. 2. — the whole Loss on the Plantation from May 1731 to April 1732 is Doll^rs. 637. —. 90 being so much more the Expences there exceed the Value of Arrack & Sugar made, so that if the Plantation can not be carryed on with better success it will Yearly encrease the Large sum it Cost the Company, they propose to send a further Assistance of slaves to Carry on the work, and are in hopes thereby they will Contribute to do it with more Success, however we can't but be of Opinion that as to the preparing the Ground and first setting the Canes it will be found to be much Cheaper and better to Agree with the Malays at a Certain fixed rate than employ a Great Number of Slaves who will be a great Charge in Maintain^e. as well as the Casualitys of sickness and desertion.

In the 24th. Parr. of their Letter ℔ George they refer to Your Hon^r. &c^a. the Allowance M^r. Rigg desiers for Acting in the Employ of overseer of the Plantation when he was at the same time Resident at Sillebar and pepper Godown keeper at Marlbrô, as this Appointment was Occasion'd by the few Number of Servants then there, and gave him the Extraordinary trouble, Attended with Charges, we are of Opinion he Ought to have a Gratuity, we Observe the Gentlemen there have thought it Necessary to Grant M^r. Hawkes an allowance of $ 10 ℔ Mensem as Overseer of the Plantation for Reasons which are Certainly very Just as long as the Deputy Govr. & Council continue to make their Monthly Visits to the Plantation.

Their Proposal for Erecting Shedds to Lodge the Pepper in at Bentall, Ippue, Laye, & Saloomah, we are of Opinion are very Necessary to be put in Execution and one hundred Dollars for each we think fully sufficient for the Cost of the buildings, since they are not designd so much for Godowns, as only for a Convenient place, Just to lodge the pepper in till it can be Ship'd off or Carried away by Carts, the Calculate for one to be built at Ippue (as proposed by the Sultan) is at a very high rate indeed, and it can by no means be for the Company's Interest to Lay out such a Sum on that Account.

After the dispatch of the Ship to Europe if there is an overplus of Pepper and the Gentlemen there are well assured the next years Produce will Compleat the Lading of their Ships for that Year it may be of Service to the Company, to load on board the Vessels bound hither what they belive may be the Overplus, because such Vessels often return in their Ballast and what Pepper they bring would be sent to Europe from hence at half Freight on our Ships and be earlyer there.

The Method taken in Consultation of the 24th. May for the Choice of a Pangaran for Manna, and delaying the Confirmation of the Title by the Deputy Govr. & Council till he had given some proof of his promoting the Pepper Plantations in his Country, we think was very right as was giving the title to Neores son of Pangaran on the same Account, and as often as any accident of this nature happens, in a part of the Country where the Head has not exerted himself, it may have a good effect to let the successor see on what foundation he must expect Preferment, the not making slaves of the women and Children taken at Manna in the skirmish Capt. Cartwright had with Dupatty Goanting D'Longit, was very Just, and should always be practis'd and will Convince the People the Design of the Company is to live in Peace with as such as are well Inclined to them and that no opportunitys are made use of to take from them their liberty but only to Punish the Guilty. The death of the Dupatty seems to have made that part of the Country much easier & may be a warn^g. to others to behave better, however the fewer Instances of Military execution there are, the better, in a Country so Remarkable for Revange.

Side Ibrahim has been endeavouring to Create some troubles amongst the Country people, but having been well watched and by good Management his designs have been entirely frustrated.

——FORT ST. GEORGE, JANUARY 1732-33——

Fifthly, Fortifications, Buildings, Repairs & Revenues.

Mr. Newcome has according to the desier of this Board Left a Plan for the West Bastion & Hospitall.

The lodgings for the Comps. Servants on the North West side of the Fort are near finished.

The Covering the Fort Walls with Chinam and the work at Sillebar no ways appear Unnecessary.

There being so many Companys Servants on the Spot the Charge of a Receiver for Materials @ 10 $ ℔ Mensem seems entirely needless.

In the 20th. Parr. of their letter ℔ Madras Galley is a representation of the state of the Present Buildings at Moco Moco and the Necessity there is for rebuilding them together with the Sultans request for it, which they desier your Honr. &ca. will please to take into Consideration, & Grant them Leave to erect some that shall be plain, tight & strong in the room of the old ones which they say are now so far decay'd as neither to be fit or safe to dwell in for the Compns. Servants & Military, as this takes in almost the whole Factory, if your Honr. &ca. shall determine to rebuild it, It will be highly Necessary to do it in a far different Manner than as it was formerly of wood entirely, which is so subject to decay, that it will be a Constant Expence to the Company, whereas if it is Built with Brick and Teak could be sent from hence or Procured from Java on easy Terms, It will last a Considerable time and save a great sum of money in the Long run.

In the 41 & 42d. Parr. of their Letter ℔ George they Advise of Mr. Newcoms having bot. and finished with Terass the Brick Godowns formerly belonging to Mr. Carnegie, which are said to be the Only tight and secure Godowns there & in their Consultations of the 8th. of May we Observe they have been Obliged to hire them to put the Companys stores in, they represent they would be very usefull to the Company to put their wares and stores in, you will please to give them directions, whither they shall Purchase them on the Companys Account, he offer'd them before his departure together with his dwelling house made of Brick and Terassed for 1500 Dollars.

The Arrack & Ophium Licence at Marlbrô is Let this last year for 20ↄ Dollrs. ℔ Mensem, which is 25 less than it did the year before, but we belive is at as high a rate as any Person can Afford to give, Mr. Newcome who was the former Renter having been a Considerable looser, the Ophium Licence at Moco Moco @ 30 Dollrs. ℔ Mensem, the Arrack Licence there is discontinued, According to Your Honr. &ca. Orders for Reasons given last Year.

They are well supplyed with salt, and the Quantity sent them in July last by the Hopewell Brigt. will be a large Addition to their stock and prevent any Uneasyness in case they should fail of their supplies from Java.

Sixthly, Factors, Writers, Officers & their Accounts.

We observe in the Accot. Salary that Mr. Everest the Deputy Govr. has paid him 300 £ ℔ Annum Salary & 100 Gratuity, and in the Paymasters Accot. 100 £ ℔ Annum as Capt. of the Military altogether Amounting to £ 500 ℔ Annum, the salary of the Deputy Govr. on the West Coast is £ 100 ℔ Annum, 100 Gratuity if the Compa. Approve & 100 £ as Capt. of the Military, so that Mr. Everest has been somehow led into a mistake in Charging so much, Concerning which your Honr. &ca. will please to Advise in the General Letter to them.

We have weighed the reasons offer'd by Mr. Rigg to the Deputy Govr. & Council for his salary & Allowances as fifth in Council till the 17th. of October when Mr. Gie arrived on the George and are of Opinion he could have no right to that Post, he being only Order'd from Europe to succeed to the first Vacancy, & the Commission filled up, but that in the Absence of Mr. Gie he ought to have taken his place as sixth in Councill according to the Companys appointment, as he did not sit at the Board, his salary & Allowances as one of the Council must be referred to Your Honr. &casa. pleasure to Grant or not, & we hope he will deserve your favour, as we find he has behaved with diligence & fidelity in the several employs he has been in, of Pepper Godown keeper, Resident of Silebar and Overseer of the Plantation.

——*FORT ST. GEORGE, JANUARY 1732-33*——

SEVENTHLY ACCOUNTS.

In the 53 & 54th. Parr. of their Letter ℔ George there are Several Articles which they desier Your Honr. &cus. Permission to write off their Books to which we are of Opinion there is no Objection as we are sensible the Articles they Mention in the former Parr. are entirely decayed & the Other by the death of the Persons and the Negligence of those who had the directions of the Compus. affairs at that time from the 1st. December 1722 to 1st. Janur. 1723/4 it is now impossible to come to any knowledge of them & all endeavours to adjust them now would be vain.

State of ye. Mint & it's Revenues taken into consideration

Having in our last Letter promised to lay before our Honble Masters the full state of the Revenue of the Mint and a scheme of the Advantages and disadvantages that will arise from prohibiting the exportation of Bullion, The Board enterd on the Consideration of that Affair this day and having examined the Report of the Committe in the year 1724/5 and the Assaymasters Calculation at that time enterd after Consultation of the 8th. of March they Observed as follows.

Continued.

That 100 Oz. of Silver produce in the Madrass Mint	Rs.	257	7	—
Batty 10 ℔ Ct.		25	11	10
	Ct. Rs.		283	2 10
The Same quantity will yeild in the Arcot Mint		267	1	—

			291	1 7
So that the Coiner gains on 100 Oz. by Coining Arcot Rupees ...			7	14 9
or ℔ Cent				2.797
It was Observed Also from the Said Reports that the Arcot Rupees were not exactly of the weight they are said to be, One thousand of them taken promiscuously having been found to fall short in Weight 11. 16 grains which is on 1000 Rupees	dwt.	1	11	
And the Assay Master did at that time Assay the said parcel which proved only 10 dwt. better instead of 12 which is their Standard—difference ℔ Mille	dwt.	9	—

				3.865

but the Charge of Coinage being reduced from 4 to 3 ℔ Ct. at that time it reduced the gain to 2. 865 ℔ Cent.

Continued.

This being the Case it is plain the Merchant can afford to give 2¾ ℔ Cent more for Silver to Coin in the Arcot Mint than in the Madrass, And it Appears from our Letter of the 23 Augt. 1725 to the Honble. Court of Directors that at the time the prohibition was laid on Silver in this place sold at only 15½ whereas the Moment it was taken off again it rose to 15 and during the whole time of the Prohibition that Year the French sold at 14⅞.

The difference then in the price was at Madrass ... ... 3⅜ ℔ Cent.
at Pondicherry 4¼

And this difference was apparently Occasioned by the Prohibition.

Continued.

The Board then examined into the State of the Revenue of the Mint and found that it was Considerably increased in those Years when the Exportation of Silver was prohibited as by the Accompanying State Vizt.

from April 1725 to 1726 in which time the Prohibition was laid on and taken off again the Revenue was	4869	34	44

from April 1727 to 1728 when it was laid on again			5981	20	18	
from April 1728 to 1729			7831	21	13

the Medium of these two years						6906 20 56
from April 1729 to 1730 when it was taken off again						2109 3 3

Continued. From hence the Board Observed that the Revenue encreased in a very Extraordinary manner during the Prohibition and as the Arcot Rupee continues in its full Currency all over the Mogul's Dominions it's not to be Imagined that any body will Coin the Madrass Specie when there is so Considerable an Advantage as 2·865 ℔ C^{t}. by Coining the Other if the exportation of Silver be Allow'd.

Revenue of the Mint during the Prohibition by a Medium of two Years	6906	20	56
D^{o}. 1 Year when it was taken off	2109	3	3
gain by Continuing the Prohibition	4797	17	53
but as the Year from 1728 to 1729 was extraordinary near 1800 more than the preeceding year at which time there was the same prohibition there may be reasonably taken off the odd sum especially Considering that from 1729 to 1730 the Charge of Coinage was not rais'd again to 4 ℔ Cent on the taking off the prohibition as it was before but Continued at 3	797	17	53
	4000	—	—
to which add that as during the prohibition the Company paid but 1½ ℔ Cent for Coining there own Silver and that on taking it off they pay 2 ℔ Cent we may allow ½ ℔ Cent on 100000 [lb. Stg.] or	1400	—	—
so that there is apparently gain'd by the Prohibition ℔ An.	Ps. 5400	—	—

Considerations on y^{e}. State of y^{e}. Mint Revenue continued. On the other hand as it is plain from the above Scheme that Silver Sold during the prohibition from 3 to 4 ℔ C^{t}. worse than it did when there was a Liberty to Carry it out, there will be a very Considerable Loss in the price whenever the Company shall have Occasion to Sell and as there is a prospect of a large Investment it is reasonable to belive there will be Occasion for the future to sell at least 50 Chests ℔ Annum which will Amount to about— 140000 Pagodas.

On which suppose Lost only	3 ℔ Cent
The Loss is	4200

which deducted from the 5400 above Leaves a gain of About 1200 Pag^{s}. ℔ Annum by laying on the Prohibition.

Continued. It remains then to Consider whither the Gain of 1200 Pag^{s}. ℔ Annum be equivalent to the Risque of a Quarrel with our New Nabob and the Uneasyness of the Inhabitants especially Considering that when the Investment flourishes fifty Chests of Silver may not be sufficient and what ever is the loss in price on such Additional Quantity of Silver sold must be deducted out of the above estimated gain of 1200 pagodas.

Honble. Sir & Sirs

In Obedience to Your Hon^{r}. &c. Commands we have Surveyed the Botiques & Godowns and find them much out of Repair and liable to an Inconveniency not be Avoided but by lowering the Streets or Raising both Roof & floor of the whole ; this Arrises from the Streets being many Inches higher than the floor of the Botiques so that the Renters upon every shower of Rain are Obliged to remove their Goods or hazard their being Damaged. We have Made a double Estimate of the Expence, one of the Repairs Necessary supposing them to Stand as they now do, the Other Supposing Roof & floor to be raised fourteen Inches.

106 Shops & 3 Godowns to Repair them as they now Stand.

Contract with Cojah Thaddeus for Broad Cloth Conditionaly and

The President then told the Board that finding the Companys Merchants determined not to make any Indent for Broad Cloth he had Endeavoured to get other Merchants to do it, and Accordingly had engaged Coja Thaddeus son of Augu Peres Calendore to Contract for five hundred and fifty Bales but that it was Necessary before we Agreed with him to Consider whither it would be for the Interest of our Honble Masters to Comply herewith which being Consider'd it was Resolved to Accept the Indent Conditionally, to be Complyed with if the Company shall please to Send the Cloth but if they do not, that the Contract be void whereupon he was Called in and Consented to those terms Viz^t. That if Cloth of the Sorts mentioned in his Indent came out he should take it, if none came the Contract was void.

Reasons therefore.

Our Reasons for this are that our own Merchants have in their Godowns of Cloth already paid for. 700 Bales

for great part of which they pay Interest and as they must have a very Considerable part of this quantity on hand when the Returns of this Indent shall Come for which they will have paid a large Interest the Present Contractor will be able to undersell them and they will Consequently be Obliged to keep theirs and be thereby disabled from Carrying on the Investment with vigour while their own fortunes and what their Credit would raise is laid out in the woollen goods. The Indent is Order'd to be Sent in the Packet.

HONBLE SIR & SIRS

I received from M^r. Torriano your Orders to deliver my Reasons in writing for my landing the Honble. Companys Goods again when I was so near being Laden and dispatched. It is my Misfortune to Acquaint you that on Twesday the Sixth day of February my Second Mate brought me the Melancholy news of my Ships Springing a Leak and that there was three foot four Inches water in her hold. I immediatly went on board and having broke up the main hatchway found two heights of Saltpetre damaged which Occasion'd my Application to your Hon^r. for Assistance. I have been ever since making what dispatch I could in Landing the Honble Companys Goods and deligent search to discover the Leak which this day I found in her Garble Strake Close to the Keele betwen the said Strake and the deadwood which makes it seem impracticable to proceed for Europe this Season, and what place is most Convenient to repair the Ship in I have not yet determined but Shall not fail to Acquaint Your Hon^r. &C^a. with my Resolution very Shortly and Am

HONBLE SIR & SIRS

In Pursuance to your Honour &c^a. Orders we have been on board the Eyles with Capt. Winter to Survey the Condition of that Ship. We find she has two Leaks in the Keel Seam down the Main hatchway, which in our Opinion are the Main Leaks which Occasion'd her making the Water she did, which was about four Inches and an

half, an hour. These Leaks being in a place not to be come at so as to Stop them Securely in our Road we are of Opinion that the Ships bottom ought to be seen in Order that her leaks may be well Secured before she can Proceed to Europe, Especially as the Season is so very far Advanced Already. Petition from Capt. Winter for old Guns.

Petition from Captain Winter for some old Guns read and Granted and the Captain attending, the President told him the Board expected an Account what he proposed to do with his ship and how the Bengal Cargo for which he had signed Bills of Lading at Bengal for the delivery of the same in England was to be transported thither to which he answerd that he designed to go to Bengal to refitt and come away from thence if Possible so as to be here in time to take in the said Cargo and go from hence in September or October but if he could not come out of the river so soon he would be up very early in December to take it in, whereupon he was told that since by so doing he kept the Cargo in his possession it would be very necessary that he got such Godowns as that it Might receive no damage, that he left people here to look after it that no white Ant or other Vermine might Come at it and that a Companys Servant should attend his people if he desier'd it to Assist them therein.

Methods for Supplyg. the Cash. Some Gold to be coin'd into M. M. Pagodas. Gold Purchased of ye. China Supracargoes.

The Cash being very near exhausted and Constant demands for payment for Cloth and other disbursments Agreed that for a present Supply fifteen thousand 15000 Pagodas of the China Gold be Coined into the M Pagoda instead of all into the Old Madrass and for a further Supply of Cash the President informed the Board that he had been in treaty with the Supracargoes & Capt. of the Wyndham for their Gold and had brought them to the following terms which if the Board Agreed to would be a Considerable Assistance to us.

the terms offerd.

That they shall Coin their Gold into Madrass Pagodas and be allowed thereon three ℔ Cent batty to be paid in Silver at fifteen Dollars Standard for ten Pagodas five days before the Wyndham sails for China or if the Compton should come round hither and go before the Wyndham then to be paid five days before the Compton Sails, if any ship from England be Arrived with Silver.

accepted.

These terms appearing very adventageous since there is no likelyhood Silver should be dearer than fifteen dollars this year & since to Supply our Selves with Cash we must otherwise borrow at Interest and then buy Madrass Pagodas to send to the Northward it was Agreed to accept thereof.

Silver to be Sold for a further Supply.

But what money we can expect to raise by this means not being near sufficient to keep the Investment in So flourishing a State as we have reason to hope with a flowing Cash may be done Agreed that the Warehouse keeper do Sell the Silver received by the Wyndham if it can be done on equal terms with the Above.

Money advanced to Andiapa.

Andiapa at Portonovo requesting more money Order'd that five thousand 5000 Pagodas be Advanced him.

General Letters read Viz^{t}. [Gener]al Letters read.

N°. 47 from the President and Councill of Bombay dated y^{e}. 15th. March advising they design'd to send us some Gold by the Compton. from Bombay.

N°. 48 from the Supracargoes of her to the same effect. from y^{e}. supra Cargoes of y^{e}. Compton.

These two Letters arrived by Pattamar.

N°. 49 from the Presid^{t}. & Councill of Bombay dated 31st. March desiring us to coin some Gold which they send us and deliver as much Silver to the Compton in exchange. from Bombay.

N°. 50 from the Cheif and Factors of Tellecherry dated 20th. April advising they had return'd by the Compton a part of the Recruits formerly sent them. from Tellecherry.

N°. 51 From the Supra Cargoes of the Compton inclosing bills of Lading for the Gold brought on her. from y^{e}. Supra Cargoes of y^{e}. Compton.

These three received p^{r} Compton.

N°. 52 from M^{r}. John Graham Resident at Maddepollam dated 21st. ult^{o}. advising the receipt of the supply of Cash sent him overland. from Maddepollam.

Petition from Cojah Petrus read (as enter'd after this Consultation) & granted requesting leave to bring ashore from the Portuguese Ship a Bale of goods which he had sent by the Canton Merchant to Goa, but which his Correspond^{t}. not being able to dispose of the same had return'd to him on this ship. Petition from Petrus.

Petitions from the Surgeons of the Prince Augustus and Devonshire for head money read & granted. Petitions for head money.

Then the Dispatch of the China ships being taken into Consideration, and the Honble Court of Directors having sent out a quantity of Lead on the Prince Augustus for China, which at the price it bears here can by no means be made a part of her stock since it will not sell for so much in China and having order'd thirty thousand pounds to be put on board the Wyndham, it was proposed to put this Lead on board as a part thereof being very near the same quantity as the Company sent last year on the four ships and consequently not more than the annual consumption of China. To this the Supra Cargoes objected affirming that it could not be sold but for loss, That it must be in barter for goods, and that when they came to receive those goods they were liable to have bad put upon them. The arguments for putting it on board were That by so doing no more or but a little more went to China than was usually sent there, That the Royal George & Nassau having bought so large a quantity in China as eleven hundred Candies & carryed it to Surat, it was reasonable to judge Canton was empty of that Comodity, and would want a supply to make good what was so carryed away contrary to Custom and that therefore it would bear a great price, That We had demanded as much as it was possible to suppose could be sold here in the year, That the Royal George being obliged to bring all hers round, which accident could not be foreseen would put a damp upon the sale, and that this addition by y^{e}. Prince Augustus if kept here would still encrease the quantity and We should be under a necessity of Dispatch of y^{e}. China Ships considerd. Lead 200 tons proposd to be put on bd. y^{e}. Wyndham. Supra Cargos objeot thereto. arguments for it.

——FORT ST. GEORGE, MAY 1733——

keeping it for some years, & therefore if it produced in China only as silver it was for the Company's interest to send it rather than keep it here.

Supracargo's continuing to object thereto, to give their reasons in writing.

But the Supra Cargoes still insisting that this Quantity of Lead would not sell but to disadvantage they were desired to give their reasons in writing next Consultation when the Board would come to a Resolution thereon.

To the Honble. George Morton Pitt Esqr.
Presid^t^. & Govr. &c^a^. Council.

Hoñble Sir & Sirs

As Your Commands have laid us under a Task wch. we were in Hopes what we offerd Yesterday in Consultation would have Saved You and Us the Trouble of, We again take Leave to Repeat to Your Hon^r^. &c^a^. Sirs our Reasons why we thought it our Duty to dissent from Your Hon^r^. &c^a^. in Regard to the two hundred tons of Lead You seem'd determind to send on board the Wyndham as Part of her Returning stock to China, which Reasons were as Follows.

First we took upon us with all due submission to assure Yo^r^. Honour &c^a^. Sirs then as we do now that in our humble opinion so large a Quantity of Lead cannot be Vended in China but to y^e^. Manifest Disadvantage of our Hoñble Masters, As we have Good Reason to conclude by the Lowness of the Price and the great difficulty we found in Disposing of 160 Tons of that Commodity last year being obliged in a Manner to force the Cheif Merch^t^. we dealt with to take it off our hands at about Prime Cost And much against his Inclination & if as Your Hon^r^. &c^a^. Sirs were Pleas'd to ask us Yesterday why we can't do the like again this Year our answer is as Before. That the Cheif Merchant we Dealt with & almost all the Merchants of Substance are now retired from Business and Consequently it will be morally Impossible for us to dispose of such a declining commodity again in the same manner. The Less Substantial Merchants not being able to perform their Contract wth. us for tea and other Goods but by the Help of the Ready money we advance them to market with and these are the Men Now (as the situation of affairs in China are at Present) that we shall be obliged to Deal with, & further we take leave to Remind Yo^r^. Honour &c^a^. Sirs of what (wth. all due submission) we could not but urge with some Zeal Yesterday, namely that as the amo^t^. of y^e^. lead before mentiond will not Perhaps be less than 8 or 9000 Tales and as this whenever it be sold must be repaid us in Tea &c^a^. the great Risque we shall Run of having bad Goods put upon us in Return and at an advanced Price too (as most Traders to China we believe have too often Experienced on the Like occasions) will not only discredit the Rest of the Cargo and Endanger the lowering the sales of the whole, But in so doing we may Likewise very Probably fall under our Hoñble Masters Dis-

pleasure and be obliged to Pay the Difference thereof at the sales out of our own Private fortunes since by our Covenants we are answerable for all Bad Goods we carry home to Our Honble Masters.

But nevertheless and Notwithstanding the Foregoing Objections if the Sending so far as 40 or 50 Tons may be of Service to Your Honr. &ca. Sirs we venture to acquiese therein conformable to what Mr. Turner hath already Proposed to You.

We Readily acknowledge Yor. Honor. &ca. Sirs power to Load what Goods You Please on Board the Wyndham for a Returning Cargo. But at the same time we cannot but observe with Humble Submission that our Honble Masters in a Paragraph of their General Letter to Your Honour &ca. Sirs (which You were Pleased to Read to us Yesterday) Expresly mentions such Goods only as will render Profit in Canton and of which we take leave to Conclude they Esteem us no Improper Judges as having so lately Had the Honour of Negotiating their affairs in China and for this Reason likewise we Presume they thought Proper to appoint us to Proceed with their Ships Instead of Residing at Canton in order to acquaint the Presidt. and Council where we were consignd with a true State of the China Market. All which we Humbly Submit to Your Honours &ca. Sirs Consideration being with Great Respect

George Morton Pitt Esqr. Govs. President. — Fryday 11th.
John Roach. James Hubbard.
Augustus Burton. Nicholas Morse.
Francis Rous.

John Roach Export Warehousekeeper pays into Cash eleven thousand 11000 pagodas in part of the sale of the China Cargo. — Expt. Warehor. pays money into cash.

Then the Company's directions with relation to the Prince Augustus's Voyage being taken into consideration a scheme was drawn out for a Voyage in her to China with a stock of sixty thousand pounds which scheme at the best makes but 18¾ ℔ Cent, but Gold having been so dear in China these two last Years that Messrs. Turner and Lethieullier were obliged to bring seventeen chests of Silver from thence uninvested, and that ye. Remains of the Richmond's Cargo which had lain the year round in China to be laid out in gold was also return'd us this year in Silver it was urged that it was hardly practicable to provide so great a quantity of Gold as would be wanted early enough for that ship to save her Monsoon and be dispatch'd for England, without which the Company must be great sufferers in the article of Demorage since by the aforesaid scheme the voyage would bear no more than five month's hire of the ship. This objection being backed with the advantage it would be to our Honble Masters affairs could We send an early supply of Treasure to Bengal which might be done if We sent a small stock to China, Another scheme was made with only sixty thousand pagodas 60000 stock which produced 16⅞ ℔ Cent and it was immediately agreed that so trifling a difference as 1 & ⅜ ℔ Cent with a risque of a disappointment of procuring Gold could never be equal to the advantages of the second scheme; But if a disappointment should happen that then the second scheme would be infinitely the more eligible. This was therefore agreed to for the following reasons vizt. — Prince Augustus's voyage to China, for sev'ral reasons. — reduced to 60000 pagodas.

That the ship enters on demorage the 20th. August & the freight of this Voyage being five months demorage The Company will have nothing to pay till the 20th. January by which time or a few days after she may be dispatch'd for England.

——FORT ST. GEORGE, MAY 1733——

That having been obliged in the beginning of the year to buy gold to be paid in silver We should not have an ounce to send to Bengal if we sent the large stock to China, whereas by sending a small one We shall have twenty five Chests for the Devonshire.

That Gold has been so dear these two years past that Silver has been brought from China, consequently only a Gruff Cargo can be certainly procured and of course

That if the Silver be brought back uninvested the profit on the voyage will be intirely lost.

25 chts. of silver to Bengal ℔ Devonshire.

Agreed that twenty five Chests of Silver & twenty tons of Tutenague be sent on the Devonshire to Bengal with as much Redwood as she can take in.

Whereas the Honble Court of Directors for Affairs of the United Company of Merchants of England trading to the East Indies have been pleas'd to take into Consideration the state of yo. Private Trade in India and being convinc'd That the Liberty yt. they had heretofore Given Has been turn'd into Licentiousness, and for want of a Proper, Reasonable & necessary Regulation, many schemes had been set on Foot by Different Persons in Seperate Interests in opposition to Each other. The effect whereof has been the Ruin of Many and more or Less tended Greatly to the prejudice of all others who were any ways concern'd in Trade and in many Instances Such fatal Consequences had Followed that their own Interests, Rights & Priviledges had been greatly Damaged thereby and the said Court of Directors having also taken notice that those at the Head of their Affairs in India had not as they might and as it was their Duty

——*FORT ST. GEORGE, JULY 1733*——

interposed their Authority to put a Stop to those ruinous & Destructive Projects. They the said Court of Directors have in their Letter dated 6th. Febry. 1732 thought fitt to Order & Direct and have accordingly given further Power and more Positive Orders to their Several Presidents and Councils in India to make use of Such means as may be thought Proper and Effectual to remedy the Evils & Mischievous Consequences so severely felt and so much Complaind off and Particularly that no Ships or Vessels should be permitted to go to any of the Ports of India without the Consents of their Said Presidents & Councils.

Now to the End that Persons being ignorant of these Orders may not unwarily Engage in any Ships or Voyages which may hereafter meet with Obstructions to the Damage of their Fortunes, We the President and Council of Fort St. George have thought fitt to give this Previous Notice that being Convinced of the Reasonableness and Necessity of the Said Orders and Directions we are Determined as far as in us Lies to put the Same in Execution. And so soon as our Attention to other weighty Affairs will allow us sufficient Leisure shall take the same into Consideration when as we shall Principally have in view the particular Good & Welfare of this Place as well as the General Benefit of the trade of India, it is our intention to take with us the Assistance and Advice of the Principal & most Substantial Inhabitants not Doubting but they will bring with them so Sincere and Hearty a Disposition to join with us (whereby so good & Desirable an Effect may follow), that as we are one People we may have But one Interest and as we have no Reason to doubt the concurrence of the Presidents and Councils of Bombay and Bengal wherein the same may be necessary so soon as we Can come to a Resolution what Voyages may be Consistent with the general Interest to be set on Foot, subscriptions will [be] Opened and Liberty given to all Persons to be Concern'd and so soon as the subscriptions are full the Farther Direction and Management of those Voyages will be left to ye. Subscribers to do as they think fitt. The President & Council as such not Designing to interfere with them Except any thing should occur prejudicial to ye. General Interest and except also those Cases which may affect the Companys Rights and as it may take up some time before we can come to a Final Resolution with Regard to every Branch of Trade and as the Nature of the trade to some Ports may require that it should be left more and less restrained than others, those who are Concern'd in Shipping would do well to Consult us before they are Engaged too Far in the Schemes they have Framed to themselves least in the Execution thereof they should find themselves under Difficulties Proceeding from the Nature of our Orders and Directions, That it would be a Concern to us Should have any Effect to the Prejudice of their Interests or Fortunes which however without due Caution and Prudence may be unavoidable.

To the Hoñble Geo : Morton Pitt Esqr.
President & Governour of Fort S^{t}. George &c^{a}. Council.

Hoñble Sir & Sirs

I Did to my Great Concern forbear Speaking any thing against the Resolution taken for making Publick the Paper Concerning Trade as I thought it was founded on Positive Orders received from the Hoñble Company in their last Letter of y^{e}. 6th. Febry. 1732,3, but having since Compared them together I apprehend that the Directions of the Hoñble Company do not Sufficiently warrant the Restraint of Trade exprest in the Paper Because what the Company write on that Subject seems to be only after a recommendatory manner, and I Do not think they mean any Compulsory measures Should take Effect before the Union of y^{e}. Three Settlements proposed by them is Establish'd.

Further it is well Known that some Persons have Engaged considerably in Trade, in Confidence of the Hoñble Protection so often Confirmd by many kind assurances from them and more Especially in their Letter Rec^{d}. last Year parag. 49. Wherefore any Restraint put upon them before the Union shall be Effected will be a very Greivous hardship and tend greatly to their Ruin for at Present they must be Discouraged and debarr'd from going on with any contracts or Engagements they may have Enter'd into and in Case that Union should be Brought about a proper Time at Least is highly requisite to be allowed for the Execution of such Engagements.

— FORT ST. GEORGE, AUGUST 1733—

I humbly Offer these my Sentiments to this Honble. Board upon the Case as it now stands and so pray the Liberty allowed me of Dissenting to the Contents of the said Paper and at the same time my Duty leads me to Declare Freely that althô our Masters have been Pleased to move those Proposals in their afore said Letter concerning trade which doubtless they were induced to Believe would be of the General welfare of the Settlement. Yet I am of opinion any Restraint laid upon it may Give the private Traders room to Complain of Being aggreiv'd, and cannot but be highly Detrimentall to the Real interests of the Honble Company To whom I desire to be indulged in the Liberty of Offering my Reasons in an humble Remonstrance. —*FORT ST. GEORGE, AUGUST 1733*—

Fort St. David Merchts. Petition consider'd.

The Purport of the Fort St. David Letter being taken into Consideration and the allegations in the Merchants Petition that the Danes at Tranquebar and a Factor from the Seperate Stock Portugueze ship take all cloth that comes to Hand without Consulting Lengths or Breadths being known to be True, That other assertion in the said Petition that the Cloth they Provide for the Company costs them forty three and three quarters ℔ Corge appears also probable to be True, and it being then debated whether it can be for the Companys Interest to oblige the Merchants to a compliance with their Contracts at Thirty eight and thirty nine 38 & 39 ℔ Corge and thereby entirely ruin the Present Contractors which wou'd infallibly Prevent our getting new ones in future as well as put a stop to the provision of Cloth at Present Or whether we should consent to advance the Prizes notwithstanding the Merchts. had bound themselves by a Contract, It was unanimously agreed that since the Providing of Cloth is the Great reason why our Honble Masters keep Factories abroad, that the tying the Merchants up to their Present contract (which they are Prevented from Complying with by accidents which have happen'd since the making it Such as the Portugueze Ship and an Extraordinary Demand from Tranquebar) must inevitably ruin them as well as put a stop to the Purchase of Cloth, That since ruining this set would prevent our getting new ones who would be deterr'd by such an Example from Engaging with us and since tis well known that our Neighbours the French did the last Year on Proof made them that their Merchants had Lost by their contracts actually Pay them near 12000 Pagodas the amount of their said Losses over and above the stated prices contracted for, For these reasons it was agreed to write to Fort St. David that provided the Merchants complied with their Contract in quantity and Goodness they should not be sufferers in the Price.

Agreed to indulge them in the price of their cloth.

Letters to be sent to B.bay & Tellecherry and an acct. of ye. regulations proposed in trade to B.bay.

Agreed to send a Copy of the French Letter to Tellicherry and another to Bombay and to inclose to ye. Latter Copy of the Paragraphs in the Companys General Letter ℔ Decker which Concern the Trade of India and of the Paper affixed at our Sea Gate consequent thereto.

Letter from Court about ye. Portuguese Ship.

The President then told the Board that upon the arrival of the Portuguese ship on this Coast he had used his interest at Court to prevent as much as Possible the said ships doing any Business and had obtain'd a Takheed from the Renter of St. Thomé to his Deputy to forbid the said ships doing any Business there which being read a Copy of it was orderd to be sent a part in the Packet by the Lethieullier.

Considerations relatz. to ye. Patan Merchts.

& several other matters.

The Honble Court of Directors having in the 27th. paragraph of their Letter ℔ Decker recommended to us to Consider of some methods to draw back the Patan Merchants from St. Thomé it was taken into Consideration and the Paragh. being read the President addressed himself to ye. Board telling them that besides this one particular of the Patan Traders several other matters for the General Good of the place and Encrease of ye. Customs occurred to him which were Proper to be debated, but before he proposed any thing he must premise that he hoped they would have no Jealousy or Distrust that he had any Seperate views therein, that all he aimed at was to make this Place the only mart of the Coast of Choromandel as formerly it was, That if in Pursuit of this Design he should propose any thing which may for a Little time affect the Private Interest he hoped that would be no Obstruction for that he was confident that when the Company are convinced we have their Interest at heart we may depend on their Favour and Generosity to give us such other encouragement as can be reasonably proposed to them, That as the Customs & Trade of the place are things of a delicate nature and whatever is resolved upon concerning them ought to be coolly deliberated, therefore as there are some things which he wanted to be informed of before he could Propose any thing farther to the Board it was necessary it should be Ordered

Sundry papers & accts.

That the Sea Customer deliver in an acct. of ye. Customs arising from the Importations of Bengal Goods by the Merchants commonly call'd Patan Merchants, distinguishing the Yearly amount of the same from May 1711 to the last April 1733,

And of what Silk or Peice Goods have been Imported by other Merchants, as well as the Patans for the same time from Bengal.

Thomé.

That the Sea Customer deliver in an account of the Customs arising from the Importation of Elephants, Elephants teeth, Tin and Wax from May 1711 to the last of April 1717 and from May 1730 to the last of April 1733 distinguishing the amount of each Year.

That he likewise deliver to the Board an account of the Quantity of Cotton and Cotton Yarn imported from May 1730 to the last of April 1733 and the Customs arising from the same, distinguishing the Quantity and Customs of each Year.

And That He Himself would endeavour to Procure an Acco^{t}. of what Customs the Merchants pay at S^{t}. Thomé, also of what dutys they pay here over and above the Companys Customs of Five ℔ Cent, Likewise what Customs, if any, are paid at Jeher Bunder and how long it has been a trading Port and what Encouragement the Merchants have to resort thither, and to S^{t}. Thomé besides paying less Customs than at this Port.

These Proposals being agreed to, the Sea Customer was ORDER'D to Prepare the several Extracts abovemention'd and Messrs. Benyon, Burton and Morse were appointed to inspect the Consultation Books about the Patan Traders. Order'd to be prepared.

Charles Peers. Nicolas Morse.

The Bedford being now on her Departure and being probably the last ship that will Go [from] hence this season for Bengal, The Board took into Consideration the state of the Investment in Order to advise the President & Council there what Tonnage they should send us in January and upon the nearest Calculate it was agreed that after Loading the Lethieullier, Eyles and Prince Augustus we could not be certain of More than one Thousand Bales to be Ready in Time. — Calculate made of wt. cloth may be expected for y^e. Janry ships. To write to B.gal to send tonnage for only 1000 bales.

Agreed therefore to write to Bengal for no more Tonnage than One Thousand Bales, but as — Do.

Near that whole Quantity is to come from Vizagapatam for which there is no other Conveyance Agreed to Write to y^e. President & Council of Bengal to send the Tonnage early thither to take it in. — [That] tonnage to call [at] Vizagapatam.

And as their so doing will prevent their sending us any Salt Petre on those ships that may be sent to Vizagapatam to take in Bales agreed to desire them to send us Two thousand bags for the Prince Augustus on Freight early & the Remainder by the Sloops. — [Sa]ltpetre to be sent up [ea]rly on freight.

The late Warehouse Keeper reports that he has not been able to provide the Full Quantity of Red Wood necessary for Bengal because not expecting the extraordinary demand for y^e. Royal Guardian he had Contracted for no more than One thousand Candies as usual every Year and the Monsoon being Contrary after Notice of that demand he has not been able to procure any more Yet, but that there is more Ready so soon as ever a shift of Wind will Permit y^e. Boats to come in. He also adds that y^e. Extraordinary demand for Red Wood this Year from the French & Danes has occasion'd it to be dearer than Usual, he having been Obliged to Pay two 2 Pagodas ℔ Candy for it. — [Re]dwood short in quantity & dearer than usual.

Capt. Wells in the Bedford being Willing to take down what Red Wood we have remaining agreed that all the remains we have in the Warehouse that Can be come at without removing the wares & stores that lye upon it be sent on board and that we send the Remainder on any Vessel, should any such happen to come in as may Go to Bengal after her. — [What] remains here [sent] on the Bedford.

That it be Represented to the Gentlemen in Bengal as our Sentiments that it will be for the Interest of the Persons concern'd in the Trade of India and Greatly add to the Profits of the Voyages, if where there is a Prospect of a Market, Bombay and this Presidency joyn with the Gentlemen of Bengal in one large stock to be Sent on one Ship only; That this Presidency is ready to joyn with Bengal up[on] the conditions directed by the Company, and doubt not but the Gentlemen of Bombay will do the same.

That it is our Opinion one Ship may carry a sufficient cargo for the Ports of Mocha & Judda.

That this Presidency will agree with the Gentlemen in Bengal in all Just and Reasonable Measures for preventing the great abuses by the Supra Cargoes and others carrying an unreasonable quantity of Goods on the Shipping for their private accounts to the great damage of their Owners.

That this Presidency will depend on the Bona Fide of the Gentleman in Bengal that the Goods provided for the Cargoes of the Ships wherein we are concern'd with them shall be upon the Best and Cheapest Terms.

That if the Company send no Ships from Europe to China and from thence to Suratt, and this Coast and there Should be a Prospect of advantage by sending one Ship to China and Suratt and another to China and this Coast it will be for the Interest of the three Presidencys to write their Concerns, and as the advice of the Company's Intentions can only arrive here in Time for any Judgment to be made whether the undertaking these will be Beneficial it ought Properly to be Left to this Presidency whether to undertake both or One, or either of them, and therefore the Gentlemen in Bengal be desir'd to give the Proper Orders, if they care to be Concern'd how much they will have subscribd for them and whether to both those Voyages or which of them

That the Gentlemen of Bombay be also desired to give the Same Orders.

Hoñble Sir and Sirs

In obedience to your Orders we have Surveyed and received from Capt. Winter such Part of the Eyles cargo as was landed here in February last. The Package of the whole is very indifferent but however appears to be intire and without alteration of which we had a better opportunity to take notice because for want of the Bengal Invoice when we received the Bales we were obliged to take the Mark off every Bale in order to compare it with the Invoice when it should come to Hand, and having since rec'd it and compared it with the account we took of Eight hundred and Fifty Bales and Chests they do agree together. The Chests of Sticklack within the Gunneys are very much broke and must be mended before they are Reshipped.

We have received no Cowrys and but [*lacuna*] of Redwood, we have also rec'd but one thousand Eight hundred & fifty bags of Salt Petre weighing Nett Bengal Factory maunds three thousand two hundred Eighty five and Seventy Pounds so that we have received less than Invoice.

	℔	q.	lb.
Cowries 214 Bags containing [*lacuna*].			
Red Wood.			
Salt Petre			
The Sugar for S^{t}. Helena has lost in weight ...	1	3	14

and one Quarter Cask of Arrack is used in filling up the Rest.

To the Hoñble George Morton Pitt Esqr.

Honourable Sir and Sirs

In February last I was obliged to petition Your Honour &c^{a}. for Guns for Kentilage for Ship Eyles, when I was forced on her Misfortune here to unload her in order to proceed to the Bay for her Repair. She has been unhappily cast away since in Bengal River by the Carelessness of the Pilot which induces me to Beg You would take my Bond for the said number of Guns and weight to be delivered on my arrival in England to the East India Company. I apprehend that all old and useless Guns are sent to them freight free. This Request of mine I presume will in Effect answer fully as well, and it will be an Obligation laid on,

Honourable Sir and Sirs,
Your most Obedient humble Servt.

——FORT ST. GEORGE, OCTOBER 1733——

To the Honourable George Morton Pitt Esqr.
President and Governour &c^a^. Council of Fort S^t^. George.

The Petition of Tonta Vengataish

Humbly Sheweth

That Your Petitioner having for some Years past rented the Hoñble Companys Buttecas during which time thrô the incapacity of Some of his Tennants he was a Sufferer and could not Possibly raise the money contracted by him to be paid the Hoñble Company so that he was obliged to raise the rent of some of his Buttecas to make good that deficiency & his former contract being expired he has lately obtain'd a new Cowle for the Term of other five Years, and Whereas the Hoñble Company have lately been at a large charge in repairs and building some new Buttecas he now Pays Pagodas 410 ℔ annum which is ninety Pagodas ℔ annum more than he formerly did so that he is again obliged to raise the rent of several of his Butteca's, otherwise he cannot be able to raise the said Pagodas 410 ℔ annum contracted for by him. This Your Petitioner has often acquainted his Tennants with, telling them at the Same time they were at liberty to remove from his Bottecas, but that if they remain'd in them they must come to his terms but they his tenants could not be brought to comply with either of these terms till Your Petitioner apply'd himself to the Worshipfull Justices of the Choultry who examin'd several of the said Tennants and told them That as Your Petitioner was Sole Proprietor of the said Buttecas during the term of Five Years 'twas intirely in his breast to raise the Rents as he thought Proper, or to turn them out in case of their non Complyance therewith. Your Petitioner likewise craves leave to observe that he only Propos'd to raise the rent of Forty three of the best Buttecas (the rest to remain as before) to 18 fanams each Butteca when at the same time in Narrans Buttecas which are two feet less than the Company's the tenants pay 30 Fanams for each Butteca, all which Case he has acquainted M^r^. Burton with, who has examind the Witnesses, and enquir'd particularly into the Premises. Notwithstanding all which His said tennants cannot be brought to comply with his demands but have drawn up a Petition against him and offer to pay for the Expence the Company have been at in repairing the old and building the new Buttecas but he Your Petitioner could not agree to this, as it must have been very much to his disadvantage and render'd him incapable of raising the sum he pays for the said Buttecas annually, upon the whole the said tennants have through the instagation of some of their Neighbours (particularly Cawm Chitty & Rayala Papaya) entirely left all his Boutiques, and assembling together before Sunca Ramah the Heads of the Cast have concerted together and Several of them Sign'd a Cajan obliging themselves, and all other of their Cast not to come into the said Boutiques upon Penalty of 24 Pagodas to be forfeited and the ignominy of being turn'd out of their Cast so that his Boutiques are intirely deserted and he render'd incapable of raising the money contracted for by him to the Honourable Company for the truth of all which Premises he craves leave to be referr'd to M^r^. Burton who has examin'd the Witnesses and is fully acquainted with the whole Affair.

Your Petitioner humbly Prays You will take his Case under Your Consideration, and afford him such remedy as to Your Good Judgements Shall Seem meet and Your Petitioner as in duty Bound

Shall ever Pray &c^a^.

such Signing should be taken as a part of the Seventeen hundred bales contracted for whereas it appears by the Consultation of the 24th. of February that Year that they were deficient Seventeen hundred Bales in their preceeding Contract, and were then allowed to the 1st. of September to compleat it and promised to be excused the Penalty due thereon if they complied therewith so that the said one hundred forty five Bales by them pretended to have been brought in, in May and June must have been on that account and not as a part of the new Contract, which appears further from the Consultation of the 14 July when and no Sooner the Merchants were again called upon to contract, where it is expressly said that at that time there remain'd fourteen hundred bales of the Former Contract still to be brought in, so that this Assertion of theirs is entirely Groundless.

That Supposing the Allegations of ye. Famine then Subsisting to be true, The Merchants could not be affected thereby any longer than the Year 1729 when it ceased and they have been allow'd all the Year 1730 and Part of 1731 to compleat the Same, nay in the beginning of the year 1732 the Board received Cloth of them on this Acco[t]. and in August of that Year they were called upon to Finish the Same, and offer'd an Advance for that Purpose, which they refused, So far is what they Assert of their Readyness to Serve the Company in the 8th. and 10th. Paragraph wide of the Truth.

Remarks

That if as they affirm the Cloth one with another cost them Fifteen ℔ Cent more than the Company allowed them for it, there is little reason to believe they were Sufferers by what turned on their Hands as they Pretend in the 5 Paragraph but if they were since neither the Company would take it, nor private Merchants buy it afterwards it must have been very bad and a loss arising from such a cause must be imputed to themselves only.

made

As to what the said Merchants set forth in the 6th. 7th. 8th. & 9th. Paragraphs of their Petition about the Broad Cloth, as that was a Transaction which had no relation to this Contract, The Board would think it a sufficient Answer to refer to the Reasons given in Consultation of the [*lacuna*] for taking a Part of it from them and unnecessary to add anything further here about it were it not that so much Stress is laid thereon in this Petition. It is therefore allowed to be true that at the time they Agreed for the said Broad Cloth no Period was fixed at which it was all to be paid for but it is notoriously false that the said Merchants were the 30th. April 1731 Surprized with an unexpected call for the Payment of the money for what remaind of it in the Warehouse, for they had been told for months before that the Board were determined to be Paid for the whole quantity before the month of April was expired, and that because they would have the Account clear'd in the General Books before they were ballanced, which always end the 30o. April, but the said Merchants having shown very little regard to the assurances of the Board, They, however they had Suffer'd themselves to be trifled with before, did now at length think it necessary to convince the said Merchants they would bear such usage no Longer. Neither have the said Merchants any just reason to complain of this as a hardship particular to themselves, the Board having used the same strictness with Tomby Chitty the following Year.

thereupon.

Their other assertion in the 9th. Paragraph That Mr. Hyde gave them one quarter of the said Broadcloth by his own Authority carries Falshood in it at first sight, since in the Consultation of the 30th. April it is expressly declared that the remaining half of the Broad Cloth should be divided between the two Sets of Merchants if Suncaramahs Set did not bring the money that night, and this they acknowledge Mr. Peers the then Import Warehouse keeper told them that day. Besides that the said Merchants could not but Know such a grant was beyond Mr. Hydes Power to make them.

Remarks upon Suncaramahs Petition

As to what they affirm of their having lost more by the Board taking from them the quarter part of the Broad Cloth than the penalty now demanded of them amounts to, It seems rather design'd to impose on the Honble Company than to carry the least appearances of Truth in it, since it is notorious that thô they Pretend this to be the case yet Suncaramah and Tomby Chitty have to this day remaining in their Godowns invendible upwards of twenty thousand Pagodas worth of the Cloth deliver'd them the Year before, and if that Still lyes unsold where is the Probability that

——*FORT ST. GEORGE, OCTOBER 1733*——

the said Merchants should have got so large a sum on Fifteen thousand Pagodas worth; add to this that all the Cloth arrived this Year lies in our Godowns not Yet deliver'd to the Merchants as does all the last Years also for security of their Bond, except forty four thousand Pagodas worth now lately sold for no more than the Price paid the company for it and that Tomby Chitty has in His godowns besides upwards of Fifty Thousand Pagodas worth.

It appearing from hence That there is no just cause assign'd in the said Petition for excusing the said Merchants from paying the Penalty demanded of them, AGREED that if they do not pay the same next Consultation they be prosecuted for it at Law.

Upon the whole no just cause appe. to the contrary he is ord^{d}. to be Prosecuted at Law.

TO THE HONBLE GEORGE MORTON PITT ESQ^{R}.
PRESIDENT AND GOVERNOUR OF FORT S^{T}. GEORGE &C^{A}. COUNCIL.

THE HUMBLE PETITION OF SUNCA VAINCATACHELUM, MUDU RAMA, NAIRO BALL CHITTY

SHEWETH

1. That whereas your Petitioners have been called upon by Your Secretary M^{R}. Torriano with a demand for Payment of a Penalty of Pagodas 4430 which he informs Your Petitioners Your Honour &c^{A}. insist to be forfeited by your petitioners for non compliance with a Contract dated 31st. July 1729 wherein Your Petitioners with Tomby Chitty &c^{A}. Company's Merchants did oblige themselves to bring in and embale 1700 Bales of Cloth for the Account of the Honble Company by the 30th. of January 1729/30 In part of Which there being no more than 822 Bales brought in, the deficiency 878 Bales of which Your Petitioners half Part is 439 Bales and thereupon the Penalty stipulated in the Contract is forfeited Viz^{t}. 20 ℔ Cent on the Value of said 439 Bales amounting as he said unto the sum of Pagodas 4430.

2. May it Please Your Honour &c^{A}. to permit Your humble Petitioners to lay before You the many troubles, difficultys and losses sustain'd by Your Petitioners in their endeavours for procuring the said Cloth, together with some other Circumstances that may lay the Case of Your Petitioners more clearly before Your Honours &c^{A}. Althô the narrative may be a little Prolix yet Your Petitioners do hope what shall hereafter be advanced on Your Petitioners behalf will not be altogether foreign to the subject matter and may carry such weight with it as to draw Your compassion towards your Petitioners, and thereupon let drop any such claim as is now made by the Secretary M^{R}. Torriano.

3. Your Honour &c^{A}. may please to observe the Contract is dated the 31st. July 1729 a very late and unusual time for the Company's Merchants to enter into Contracts for the Year, Your Honour &c^{A}. may also be informed that Governour Macrae &c^{A}. Council had treated and seem'd to have concluded this Contract in April 1729. But when the Contract was drawing up Governour Macrae insisted upon an article to be mention'd therein, whereby Your Petitioners &c^{A}. were in case of Failure not only liable to the usual Penalties But also to the payment of the Penalty incurred by the deficiency of the former Contract 1728. Your Petitioners &c^{A}. had largely excused the deficiency of 1728 by reason of the Famine and other troubles in y^{e}. Country and thereupon thought themselves exempt from any further demands on that head wherefore they desired Governour Macrae &c^{A}. to take out that article relating to the penalty

1728 and your Petitioners &c^{a}. would sign to all the rest of the Contract as then drawn out. But Your Petitioners not being able to prevail with Governour Macrae for that time the Contract lay in Suspence from the 1st. May to 31st. July 1729. Here your Honour &c^{a}. may be informed that Your Petitioners &c^{a}. had always hopes of a Compliance to their Exception of said Article and thereupon had Set about the Providing of Cloth and accordingly did bring in 145 bales value 8416 Pagodas in May and June 1729 (the two Months the contract lay in suspence) and when the contract was agreed to and signed the said 31st. July 1729 It was mutually agreed by the said Governour Macrae &c^{a}. Council and Your Petitioners &c^{a}. that the said 145 Bales should be received and accounted as part of the said 1700 Bales. If this be true as the case was and is Your Petitioners hope Your Honour &c^{a}. will enter the same into the Credit of Your Petitioners &c^{as}. contract and then there will be but 733 bales deficiency of the Contract and consequently but 366½ Bales short of Your Petitioners ½ Part.

4. As there is a Clause in the said Contract to excuse any Penalty in case of any deficiency on your Petitioners &c^{as}. Part Provided the Wars and disturbances in the Country should render it impracticable to procure the whole quantity of 1700 Bales, So your Petitioners hope to be indulged with the Benefit of said Clause since it was most evident the Weavers and other People of the Country still labour'd under the sad Effects of a severe famine then going on of three years continuance whereby the death of many able weavers, the slow Progress of new Workmen added to the disturbances in the Country occasion'd from the Severity of the Rent-Gatherers over the Poor People now unable to pay the usual Taxes, increasing the unhappy condition of the Poor remainder of Workmen, and thereby renderd the Weavers incapable of Performing their Promises to your petitioners &c^{a}. they were also unable to comply with their contract. However Your Petitioners cannot but acquaint your Honour &c^{a}. of their continual and eager struggles with all the above disadvantages and many others to procure Cloth at any Rate. Your Petitioners most freely distributed and advanced their money among the Weavers under the greatest hazard of Bad debts. Your Petitioners Spread their Servants into all Parts where they could hope for Cloth at any Tollerable price, so as to bring a Corge of Long Cloth ordinary to 33 and 34 Pagodas ℔ Corge choosing to Suffer a loss rather than be Slack in Performing their contract which contract Y^{r}. Honour &c^{a}. know allows Your Petitioners but 29 Pag^{s}. for N°. 3 But 30¼ for N°. 2 But 31¼ for N°. 1. Thus Your Petitioners were a trading to the sure loss of 15 ℔ Cent upon their contract of Long Cloth and so in proportion of other Cloths, and notwithstanding these great hazards and difficulties your Petitioners have the Pleasure to say they &c^{a}. Merchants did bring in between 15 or 1600 Bales of Cloth accordingly to contract that is to say in number and Species. But so it happen'd that very good Cloth was not then to be Got for Reasons abovemention'd and the want of able workmen at the Lombe. This last difficulty cou'd not be overcome by your Petitioners Industry or Prudence. Wherefore Your Petitioners Suffered by 578 Bales being turn'd out by Governour Macrae &c^{a}. whose Strict Sortings and Strict measurings threw out the Cloth that was not quite so good or quite so long & broad as the Muster at a time when your Petitioners might hope for the most favourable reception of such Cloth as was to be got. Had these 578 Bales been added to the 967 Bales already taken in they would very near have compleated the Contract.

5. Your Petitioners here beg leave to address your Favour in consideration of the Loss Your Petitioners &c^{a}. Suffer'd on the Sale of these 578 Bales of turn'd out Cloth besides being 2 or 3 Years setting in it and lying out of the Money which at the Interest of 9 ℔ Cent ℔ annum will amount to near 4430 Pagodas the Money now demanded. These and more Arguments may be pleaded in behalf of the deficiency now charged upon Your Petitioners. But your Petitioners have taken up so much time on this part that your Petitioners leave what has been offer'd to Your Honour &c^{as}. favourable Consideration and beg leave to proceed to show how your Petitioners have suffer'd more by the Company than the demand now made on your Petitioner's part.

——*FORT ST. GEORGE, OCTOBER 1733*——

6. On or about October 1730 Your Petitioners &c^{a}. bo^{t}. all the Broad Cloth that came out that Year, and gave the full price of 35 ℔ Cent on the Europe Invoice, the whole being 717 Bales of all Sorts amounted to Pag^{s}. 77236 or thereabouts. Your Petitioner's &c^{a}. had before April 30th. 1731 taken out of the Warehouse and paid the value of 226 Bales amounting to 20938 Pagodas your Petitioners &c^{a}. little believing any trouble could happen to them on account of the Broad Cloth remaining in the Warehouse. But the 30th. April 1731 Your Petitioners &c. were surprized with an unexpected Call of 56298 Pagodas for the remaining Broad Cloth to be paid instantly or Your Petitioners to be excused the Benefit of the Bargain. Here Your Petitioners beg leave to observe when Your Petitioners &c^{a}. bought the s^{d}. Parcel of Broad Cloth no writing passed between the Buyers and Sellers. No conditions were mention'd except to take all at 35 ℔ Cent on Invoice. No time was fixed for Payment much less such a Peremptory day as the 30th. April now insisted on. The bargain was Verbal, and under favour and usuage of Merchants, all which Your Petitioners did not fail to plead when this heavy demand was made. But the Governour and Council being pressing, Your Petitioners only desir'd 10 Days to pick up the money offering to pay Interest &c^{a}. charges during that time, but nothing could procure the favour of one days Forbearance. For after your Petitioners were dismissed the Consultation Room, M^{r}. Peers the Warehouse keeper was sent to Your Petitioners to let them know that if Your Petitioners did not pay the Money by 9 of the clock in the evening your Petitioners should assuredly be excluded the Bargain.

7. Your Petitioners will not say by what good fortune or Favour Tomby Chitty and his Partners did procure 28149 Pagodas for their half of the Broad Cloth. But the short warning your Petitioners had for so large a demand put your Petitioners to their wits end to comply, however your Petitioners at or about 8 of the clock that same evening did offer to the Warehousekeeper 18000 Pagodas of the money upon which he waited on the Governour to acquaint him together with the strongest Assurances from Your Petitioners that if the Governour &c^{a}. Council would forbear the other 10149 Pag^{s}. for three day's, Your Petitioners would lodge the whole Parcel of Broad Cloth for Security. Your Petitioners would willingly pay Int^{t}. and charges for the time, and Moreover (as the order for making Current the new Coin of MM Pagodas came in force that very first of May) that there might be no exception Y^{r}. Petition^{rs}. promised to pay the said sum in the new coin altho the Batta was then 2½ ℔ Cent to your Petitioners loss but all could not Prevail & your Petitioners were shut out of their Purchase, & their ½ of y^{e}. Broad Cloth absolutely refused to be deliver'd for no other reason that y^{r}. Petitioners can learn but because they did not Pay the money the 30 April 1731 whereby Your Petitioners have been greater Sufferers than y^{e}. amo^{t}. of the penalty said now to be due from Y^{r}. Petitioners on account their Long Cloth Contract.

8. It has been said of Y^{r}. Petitioners that they have not only been deficient in their Contract 1729 but that Y^{r}. Petitioners will not Contract, or Serve the Company any more, as Y^{r}. Petitioners have been some of the Companys Merchants for upwards of 26 years, and have always profest their highest Ambition to obtain Y^{r}. Hon^{r}. &c^{as}. Favour so undoubtedly Y^{r}. Petitioners would on all occasions endeavour to Serve the Honble Company to the utmost of their Power. Wherefore Your Petitioners would endeavour to take of such an Opinion of Y^{r}. Petitioners Obstinacy & Ingratitude, and as some Instances to prove this may introduce another part necessary to be mentiond of the Broad Cloth Y^{r}. Petitioners beg leave to mention an instance of their great readiness to Serve the Honourable Company when Y^{r}. Honour &c^{a}. sent for Y^{r}. Petitioners ab^{t}. Y^{e}. 20th. May 1731 to enquire whether Y^{r}. Petitioners would enter into a Contract wth. y^{e}. Company. Y^{r}. Petitioners did then frankly offer to undertake a Contract for 1000 Bales upon the same terms and conditions that Tomby Chitty &c^{a}. had done provided that Y^{r}. Petitioners had the above-mentiond Broad Cloth deliverd them. But this being refused Y^{r}. Petition^{rs}. were dismiss'd.

9. About the 28th. May 1731 M^{r}. Hyde being then Wareh^{e}. keeper came to y^{r}. Petitioners & among other discourse offer'd to deliver Y^{r}. Petitioners ¼ p^{t}. of y^{e}. broad

cloth. Y^r. Petitioners ask'd if M^r. Hyde made that offer by Order of the Governour & Council to which M^r. Hide reply'd he had no orders from the Council. But he would give y^r. Petitioners ½ Part as from himself which Y^r. Petitioners accepted and 3 days after took ¼ P^t. and paid down the money so that there now remain'd only ¼ P^t. of the Broad Cloth detaind from Y^r. Petitioners whereby they are Sufferers more than the money Now demanded, And the advantages of this ¼ p^t. was given to Tomby Chitty as far as Y^r. Petitioners can learn.

10. About 16 Months after Tomby Chitty had made a Seperate Contract for Cloth being September 1732 Y^r. Petitioners were sent for to the Govern^r. and Council, but one of Y^r. Petitioners being sick, they sent Mudu Rama to wait on the Govern^r. who asking if Y^r. Petitioners would enter into a Contract for the Company's Cloth Mudu Rama excused Y^r. Petitioners on account of some troubles Y^r. Petition^rs. family and Factors Labour'd under at Arcott and thereby were renderd incapable of doing the Company Good Service for that time. Then the Governour insisted upon Your Petitioners bringing in the deficiency of 1729 to which Mudu Ramah desired 10 Days to acquaint Y^r. Petitioners and get Informations from abroad, after Which time Mudu Rama return'd to the Governour, with an Acco^t. of the abovemention'd troubles in the Family. But Withall offer'd that if the Governour would advance Y^r. Petitioners 10,000 Pagodas they would endeavour to procure Cloth for it, and when that Money was invested Y^r. Petitioners would undertake another 10000 Pagodas and so gradually serve the Company to the utmost of their Power. But to undertake a Contract Mudu Rama had sufficiently excused them upon which the Governour dismissed Mudu Rama, and these Affairs have rested untill now.

11. Your Petitioners beg Pardon for taking up so much of Your Honour &c^as. Time in consideration of the many occurrances and Circumstances that were necessary to Collate upon the Judgement of a Point now 3 Years in Dispute. Your Petitioners hope for a Favourable reception of what has been here offerd to Your Honour &c^a. Consideration, and then doubt not but that Your Petitioners may be discharged from any Claims or Demands whatsoever.

And Your Petitioners as in duty bound
Shall ever Pray.

The Board being inform'd that a Chitty Merchant havg. hoarded Grain was sellg. of it out by Stealth & in small Parcels & believg. that many other Practices are used to keep up the Price thereof, Order's are Issued forth to prevent the same.

The Board being informed that a Chitty Merchant who had hoarded up Grain in the beginning of the Year was now selling it out by small parcels at his own house, and in the night and there being great Reason to believe that many others were guilty not only of the Same practice but also of Purchasing Grain in the Country which they kept there, and brought to town only in Small Parcels in order to keep up the Price and to make an advantage to themselves from the present Scarcity, Resolved to Publish Orders at the Gates and by beat of the Tom Tom forbidding the said Practices. Accordingly a draught of one was made and order'd to be translated and Published at the Gates.

1st. Part of a Consultation at Fort St. David dated 1st. November as follows.

Messrs. Berriman, Eyre and the Gunner agreable to reference of the 11th. August present their Report survey of the Fortifications and buildings of this Garrison with the Workmens Estimate of the Cost of Repairing them amounting to two thousand three hundred thirty Six Pagodas, Eight fanams and Sixty Cash as ℔ account after this Consultation which is referr'd to be further considered.

To the Honble George Morton Pitt Esqr.
President & Governour of Fort St. George and St. David &c.a. Council.

Honble Sr. & Sirs

Agreable to an Order in Council of the 21st. August past we have at times Visited and Survey'd the Several Buildings of the Companys in this place, and with the assistance of the Head Bricklayers, and Carpenters have computed the Respective Charges amounting to Pagodas 2336. 8. 60 which we humbly offer to Your Honour &ca. in the following manner.

The Out Points and Guard houses most of them want Chenaming, the Windows and Doors much decay'd, Flag Staffs and Ladders rotten ; the Washers Choultry's at Bandipollam much decay'd by White Ants to be new rooft, and a pavement without the Choultrys to keep the Cloth on much Wanted.

The Fortifications in Cuddalore want Chenaming the Walls and Mending Some decay'd parts with Brick, Plank and Timber, the Curtain Wall and filling up between Metchlepatam and Gulcundah Point abt. 250 Yards very necessary to secure the Wall and Communicate from Point to Point, Paveing of Diew Point finishes that ; and a part of the Wall towards Gulcondah Point wants finishing a Top the foot Banks to fire over the Wall are not finish'd and takes a good deal of Chunam and Bricks. The Guard at Curdapa on the North Side of Penna River much decay'd and considering there is little to Secure there 'tis hardly worth the Repair. The Mauratta Wall that runs along the West Curtain of the Fort, and so to the Eastward of the Fort Gate without, wants Repair & is accordingly computed, an Hospital being much wanted for the Sick People may be built on the old Hospital Ground, or rather on a spot joyning the Carpenters Yard, for conveniency of a Guard from the Fort to secure the People at Night, 'tis proposed to inclose a Compound with a Brick Wall and make a Hall of 24 Foot Long and 12 Broad, and at each end a Room 12 foot square, a Verando of

——*FORT ST. GEORGE, NOVEMBER 1733*——

10 Broad, and at each End a Room 12 Long and Ten broad all Terrast, other necessary Places of Palmeraes, and Tyles to make it Commodious we presume may be thought a Necessary Peice of Work.

All which we humbly offer to Your Honour &c^{as}. further Consideration and are most Respectfully,

FORT S^{T}. DAVID

——*FORT ST. GEORGE, NOVEMBER 1733*——

PART OF A CONSULTATION AT FORT S^{T}. DAVID 12 November Viz^{t}.

A Petition from the Merchants, Weavers, Painters & other Inhabitants of Fort S^{t}. David is now read, praying the Reduction of Several dutys and other Customs on Merchandize & Grain, as particularly the Beetle and Tobacco farm, as a means to draw in Some numbers of Weavers and other Inhabitants to our Bounds, that have been of late Years very much Depopulated by the desertion of So many Inhabitants of that Sort, and many others to the great decay of the Honble Company's trade here, And to Shew they have it earnestly at heart they adjoin a Subscription of two thousand 2000 Pagodas for Building four hundred Houses to be lodged in the Deputy Gov^{rs}. hands, and given out as the New Inhabitants that Shall Come may be recommended to him, AGREED that a Copy of this Petition be deliverd to the Honble President to be further consider'd by Him & Council at Fort S^{t}. George.

A Letter from Shevanaigue Reddee representing that his Father Woodgnaigue Reddee used to trade here for the Company but dying left his Children Young with the Mother here and being involved in troubles with Syropsying and the Honble Company for which the then Deputy Govern^{r}. and Council Siez'd thirteen thousand 13000 Pagodas being all his money they could find here, to repair the loss they had Sufferd by it, That the fear of Further troubles from the Company had since that time kept him in the Country, But now hearing the Honble President is proposing Some alterations to encourage the Encrease of the Inhabitants at this Place he offers his inclinations to come here and bring in One hundred and fifty Weavers Soon after him, and find some other ways of Assisting the Company's Business and intentions here If he could have as he desires a Cowle granted to free him from any of the Company's further demands or molestations on the account aforesaid.

ORDER'D that a Copy of this letter be sent to the Honble the President and Council of Fort S^{t}. George for their Directions in this Matter.

The Report Survey of the Fortifications and Build^{gs}. of this Place, amounting to two thousand three hundred thirty six Pagodas, Eight fanams & Sixty cash Pag^{s}. 2336. 8. 60 is now read and orderd to be inclosed to Madrass to be considerd there.

The President reports a Proposal made him by the Companys Bound renters for watering the Northernmost parts of the Bounds by cutting a Channel a little to the Westward of the hedge from Peniar River to convey what quantity of Water might be wanted to make those Parts as fertile as at Bandipollam from the Trevendeparum Water Course, That before these Grounds belonged to the English the Country People had cut Such a Channel, which has been since filled up, but that the Course of it is yet Visible to be traced thrô the Grounds of several renters of Whom by Letters to Lawlcawn of Chellumbrum he has wrote to obtain Leave to open the old Channel, and when he gets to Madrass proposes to prosecute the Design by Letters for Licence from the other Country Renters, as being a Very Valuable Work, & what must considerably augment our Bound rents.

The President also acquaints the Board that Andiapa of Porto Novo has made him a Visit here, and was very Glad to hear that his Inhabitants had Petition'd for the means of bringing the Weavers to Settle in the Company's bounds which has Encouraged him to buy a large house in Cuddalore to settle his People in a trade there, That he intends to build two large houses at Trepopilore with Convenient Godowns for Goods, with the Same intent, That he has also pitch'd on a Peice of Ground there to build houses for the Weavers as fast as he can bring 'em in, and that he himself designs to Visit there very frequently.

PRESIDENT AND GOVERNOUR OF FORT S^{T}. GEORGE & S^{T}. DAVID.

THE HUMBLE PETITION OF THE COMPANY'S MERCHANTS, WEAVERS, PAINTERS AND THE INHABITANTS IN OR ABOUT S^{T}. DAVID

SHEWETH

That Your Petitioners beg leave to lay before Y^{r}. Honour a Proposal which they apprehend will be a motive to preserve them within the Companys Limits as well as a

——FORT ST. GEORGE, NOVEMBER 1733——

means to draw in Several People who have deserted this Place and the great many more are ready to follow them purely by the many hardships they have undergone which they do not meet with in any other Part of the Country.

Your Petitioners doubt not but Your Honour will grant them the Several Articles of their Request here undermention'd, then they will publish the Same in the Country everywhere about, which will certainly have the desired Effect, and the Company's Bounds will be thereby repeopled Viz^{t}.

All Goods that are imported and Exported, Your Petitioners desire they may be immediately cleared as they come into the Banksalls or Choultrys.

All Goods made in the Company's Bounds and Exported to pay no more than 2½ ℔ Cent duty instead of 5 ℔ Cent the Same as the Blew Cloth and the Painting's usually does.

All manner of Grain coming into the Bounds used to pay duty 20 Cash ℔ Oxen, but M^{r}. Turner Order'd all to be valued and to pay custom thereon at 2½ ℔ C^{t}. which Y^{r}. Petitioners desire may be brought again to 20 Cash ℔ oxen as Usual.

The Poorer Sort of People may here have the Liberty to bring in all manner of Grain Custom free to the Value of 4 Fanams, until Such time as the Place begins to flourish when y^{r}. Honour may gradually advance the Custom thereon as You will then see most Convenient.

When your Honour was here no Fees was paid to the Sea Customers on Blue Cloths and Paintings which only paid the Choultry fees and the land Custom of 2½ ℔ Cent, but since You left the Place the Sea Customers impose on them 1 ℔ Mill, wch. Y^{r}. Petitioners have been obligd to pay rather than Suffer the Goods to lye at the Banksall for a Considerable Time, this they desire may be remedied, as it was in Y^{r}. Honours Time they are willing to pay the Usual Fees for Certificates on all Goods Exported, and likewise Your Petitioners desire the Deputy Governour may Set a Conni-coply on purpose to give him an account of this Affair they being Apprehensive y^{t}. some trick may otherwise be plaid them.

——FORT ST. GEORGE, NOVEMBER 1733——

1733 WEDNESDAY NOVEMBER 7TH.

A Letter from Shevanaigue Reddee to the Reddee of the Town of Tevenapatam to be presented by him to his Governour That Formerly when my father Woodgnaigue Reddee lived in the Town of Tevenapatam he used to make Merchandize for the Company or as their Merchant for the Investment, And about 25 Years ago my Father took the Rent of Valdoor Country from Syrrupsing King of the Chingee Country at that Time. Syrrupsing was informed by his Enemy's Some falsity's against my father, and relations which he afterwards seek't means to bring my Father into Troubles who was obliged for his own Security to complain to the then Govr. of Fort S^t. David, Who said that he had nothing to do with Syrrupsing, or his Country Government, but he bid my father do and act as he thought Proper, in a Short time after my Father died at Tevenapatam when my Self and Brother being Young, and our Mother (being a Woman who could not understand any Business) took leave of the Governour, and went into the Country with all her Family and lived there, about that time a Ship run a shore between F^t. S^t. David and Porto Novo when Syrrupsing's People stop'd the Goods belonging to the said Ship. Then the Govern^r. of Fort S^t. David sent his People, and brought away all the Goods by Force, Which induced Syrrupsing to Seize on Two Gentlemen belonging to Fort S^t. David which was the occasion of a Warr between them and then the Govr. of Fort S^t. David had made a Seizure on all my Effects and money left behind at Fort S^t. David, 8000 Pagodas from Gunnapah Chitty and about 5000 more from Sundry People. Ever since that time I have kept my self in the Country, and have been afraid to return to Fort S^t. David, now Since Y^r. Honour I hear is come there in order to make some alterations in the Government and encouraging the People to come and live under you I am very willing therefore to come and live under the Protection of So Generous a Governour and do propose to bring in a short time 150 Weavers and so soon as I Effect that I do not doubt but to bring into Your Limits Vast Number more. Therefore I desire Your Honour to Send me a Cowle that no harm Shall happen to me, and after You have granted me this favour, I will Propose to Your Honour some other way of Making Merchandize for the Company's Benefits, and The inhabitants may Likewise have a Livelyhood thereby, and then they will be pleas'd with their Habitation.

P.S.—He sent word here to acquaint Y^r. Honour that he may Signifye in the Cowle that the Company shall have no demand on Him when he comes under their Protection.

and he have offer'd to bring Weavers into the [Bounds] if he be discharged the Board made the following Observations on this Affair.

For Payment of Which the Company had Seiz'd all the Effects they could find belonging to Shevenaigue Reddee notwithstanding which he continued a debtor to the amount of Seven thousand Seven hundred and Sixty Pagodas 7760 and he having offer'd to bring a Considerable number of Weavers into the Bounds in case he be discharged From any further demands on that acco^{t}., the Board having debated on this affair for Some time made the following observations.

Observation's.

That the whole Sum paid was charged to his account, though the Rajah at the Same time made over to the Company the Mole of Trevendaporum by which a great Part of the Bounds are water'd and consequently a part of the money Should be placed to that account which would lessen his debt.

do.

That he is a Person of great Figure in the Country and under no necessity of coming into our Bounds as appears by his having lived upwards of twenty Years out of them on an Apprehension of this money being demanded of him and that while he does Stay out the money is as Irrecoverable as it will be after giving him a General Release.

do.

That the said debt was wrote off of the Company Books many Years ago so that it will make no alteration in the Present accounts having been looked upon so long as a desperate debt. That it appearing from hence nothing can be got by keeping him out of the Bounds whereas if he complies with his promise, and brings Weavers into the Bounds the Benefit will be very great by our admitting him.

——*FORT ST. GEORGE, NOVEMBER 1733* ——

To the Honble George Morton Pitt Esqr.

President and Governour of Fort St. George &ca. Council.

Honble Sir & Sirs

Mr. Sea Customer being ready to deliver Your Honr. &c. the Several accounts relateing to the Customs and Importations of the Several Species of Merchandize wch. he was directed to do in Consultation of the 27 August last, We think it proper to lay before You at the Same time all the orders we could find relateing to the Merchants commonly called Patan Merchants, and what Else we could be informed of relating to the traffick between this Port & St. Thomé.

The first notice which is taken of those Merchants importing their Goods at St. Thomé we find in the 76 Parragraph of the General Letter from this Presidency to the Company dated ye. 9th. of October 1716 wherein reference is made to the Consultations of the 15th. of January, 16 of February, 2d. of March & 23d. of April that Year. It does not appear what particular steps were taken by the then President and Council to bring those Merchants back again but it is pretty Easy to Guess their Reasons why they did not care to make them too publick. Yet notwithstanding all their Caution they did not Escape the Nabobs Observation, President Harrison having the 13th. February received a very angry letter from the Nabob which together with the Answer dated the 14 of February both in the Country letter Book we offer to Your Honour &c. consideration as well worth Yr. Notice. But however the President and Council did then flatter themselves that they had put an End to that Practice so Prejudicial to the Company's revenues, the favours which were then Shewn to them People Seems rather to have convinced them of the Value that we Set upon them than to have bound them to our Interest, for the next Year we find them again Gone to St. Thomé and insisting upon a further abatement of the Customs, and other duty's and refuse. to return again without their demand's were complyed with, there is not anything more worth Notice. In the Consultations of the 14th. & 18th. of Febr. 7 & 11th. of March 1716/17 in which last the affair of the Patans till the return of Mr. Collet here who was then at F. St. David, what was done in it after he came back hither does no where appear upon record but if we may give credit to report he prohibited all commerce between this Port & St. Thome, would not Suffer any Ship which had first landed her Cargo there, to come afterwards into this Road or to be supply'd with any Naval Stores from hence. It is said those measures were Effectual to bring some of the Patans back to Madrass but they were chiefly those of the Poorer Sort, and who were in want of the Madrass money. Those together with Dilaul Cawn who still remaind here continued to Import their Goods for some years after to this Port but still frequently complaining and teaseing the Government for an Abatement of the customs. Certain it is the Major part and most substantial of the Patans remain'd at St. Thomé and after the death of Dilaul Cawn here and the little credit which the rest of them found afterwards among our Inhabitants has been the cause that the Greatest Part of the Bengal Goods has been imported at St. Thomé, there are some other Circumstances which Induce the Patans to continue their trade at St. Thomé as well as others of a more unhappy nature which have occasion'd the decay not only of this trade, but of all others upon this Coast, but we know Your Honour &c. will Set them Forth at a proper time, And as they do not come within the Compass of our Enquiry We Shall detain You no longer than to assure You We are

I am Your Honour &c^{a}.
Most Obedient humble Servant
Randall Fowke.

To the Honble George Morton Pitt Esqr.
President & Governour of Fort S^{t}. George &c^{a}. Council.

Honble Sir & Sirs

We have according to Your order Examin'd the fort S^{t}. David Survey for repairing the Buildings, there Every Article Should have Signified the length and height of the Several points and the Situation of them the Walls likewise from Point to Point and what else is necessary to be done ought to be more fully specified.

Cundapah Choultry is a needless repair, it Stands to the Northward of Puna River which hinders a Communication to the Fort whenever the fresh comes down from the Country, besides it has nothing to defend but a few Parriar houses So that charge of P. 57. 8. — may be very well Saved.

——*FORT ST. GEORGE, NOVEMBER 1733*——

The Mauratta Wall or Fausse—braye is computed to Pag^{s}. 102, it is a very necessary Article to begin upon so soon as Possible and it ought to be well finished althô it should cost somewhat more it being the only Security to the Westward Wall of the Fort and the Southward point, and So to the Southward quite to the Back Gate.

The Hospital should be on the same place where it was before rather than by the Smith and Carpenters Yard for the sake of the Air according to the Plan deliver'd us.

We are

The President tells the Board he finds on Perusal of the Sweed's Papers that Mess. Peers & Parkes have carr^{d}. on a trade to y^{e}. Prejudice of the Compy, by way of Tranquebar &c^{a}. The proofs being read & the Compys orders in such cases, Orderd that the Secry demand Security for their Appear^{e}. in England.

Charles Peers and Samuel Parkes, the former being found to have traded to Europe by Way of Tranquebar & to have concealed the advices he received so long ago as last Year of M^{r}. Barringtons Present design which had he disclosed as he ought to have done would have probably prevented the said Barringtons being allowed to Import at any Port on this Coast, and so have as Effectually disappointed his attempts as the measures we have since been obliged to take. The other has not only been guilty of the Same but was engaged in a clandestine trade for Broad Cloth by the Company's Ships & guilty of several other Misdemeanours. Committee of the Fort St David Merchts. Petition deliver in their Report, it is debated on and resolved

Report from the Committee to whom the Petition of the Fort St. David Merchants was referr'd, deliver'd in, read and orderd to be entered after this Consultation and the Board after having fully debated thereon and Consider'd the Purport of the Companys letter and their Intentions therein came to the following resolution .

that the Beetle farm is the cause of their desertion,

First. That the Beetle and Tobacco farm at Fort St. David has been the cheif cause that the Inhabitants have left that Place, for as the People who inhabit there, are not on the same Footing as at this place Establish'd for the Benefit of a Foreign trade, which may be Supposed to bear such duties; but live purely on the Produce of their own Labour as Spinners, Weavers & Smiths, Carpenters &ca. handicrafts trades. It is not to be supposed they can or will live where such taxes are laid when only removing two or three Miles will ease them of it.

that the advancing the duty on Grain has had the Same effects

That the duty of two and a half Pr. Cent on Grain laid on there in the year 1724 which before was only twenty Cash ℔ Ox Load or at the then price of Paddy and other Grains in an Average abt. one and an Eighth ℔ Cent is of the Same nature & must have the Same Effects Vizt. the causing the Inhabitants all but those who Subsist by the Companys Pay to go into Places Where they can live Cheaper and that the dearer Grain is the heavier this Tax *ad Valorem* lies.

——FORT ST. GEORGE, DECEMBER 1733——

From hence it appears that there is no probability of getting any new Inhabitants or even keeping the Few now remaining while these duties continue there, but as the Company have only given Permission in the 30th. Parragraph of their Letter ℔ the Deeker to ease the Inhabitants of any Small duty, It was consider'd whether the Board ought to come to a Resolution for parting with the former of these duties which is to a Considerable amount. On the other hand they having Strenuously recommended the engaging Weavers to reside in the Bounds declaring that to be an agreable Service, and more than Ordinary necessary at this Time, while there are So many rivals in the Cloth trade on the Coast and having Expressly order'd us to take off this very duty in the Villages about Madrass in Order to bring Weavers there, and it being apparent that great Part of the Inhabitants of Fort St. David Settled at Pondicherry during the time there was no Beetle Farm there, and consequently there being great reason to believe they will return if there be none with us to avoid it at Pondicherry where it has been For some time again Establish'd It was AGREED to be the Companys Interest and in reality contenant to their Orders to ease the Inhabitants of Fort St. David therein.

It appearing there is no Possibility of keeping the Inhabitants remaining without easing them and the Necessity & the Compys Orders for so doing being debated.

Agreed to be the Interest of the Company &c. it was

RESOLVED therefore that the Beetle and Tobacco Farm be taken off and that the Customs on Grain be reduced as formerly to twenty cash ℔ ox load. But there being a request in the Merchants Petition that the Poor may bring in Grain as far as 4 Fanams custom free, AGREED to Order the Deputy Governour & Counsil to examine into that Particular and advise us who are likely to bring it in, in that manner and what proportion it will bear to the General Importation.

Resolved that the Beetle and Tobacco farm be taken off & the custom on Grain as formerly, The request in the Petn. that the Poor may bring in 4 fas. worth Cust free is Order'd to be examin'd into.

The Duties of Five ℔ Ct. on blue Cloth & paintings made for Porto Novo & Pondicherry, when those made for all other Places pay only 2½ having prevented the making any for those two Places and yet not hindering their being Supply'd but on the contrary havs. carried away many of those trades to reside out of the Bounds, RESOLVED that all Blue Cloth and Paintings made for what place soever and that all other Goods manufactured in the Bounds pay only 2½ ℔ Cent.

Duties of 5 ℔ Ct. having been prejudicial), it was Resolved that it be Reduced to 2½ ℔ Ct.

And as the great Design of these Alterations is to Encourage Usefull Inhabitants and to provide Cloth in the Bounds for the Company, RESOLVED that no cotton Yarn be Sold by the Spinners but to the Weavers, and that none be carried unmanufactured out of the Bounds, Except what brought in from the Country and return'd for want of a reasonable price for the Same, and that it be recommended to the Deputy Governour to take care the Importers of Cotton do not make an Exorbitant Gain before it be Sold to the Spinners nor the Merchants make a property of them, and the Weavers wch. possibly without a Strict Eye over them they might endeavour to do.

No cotton Yarn be sold by the Spinners but to the Weavers, none to go out of the bounds unmanufactured.

RESOLVED that the Deputy Governour and Council do Examine whether the Revenues collected by the Poligar be Sufficient to maintain the number of Watchmen which he is by his Cowle obliged to keep, and if they be, that they take care the number be all on duty, but that Since many Accidents make it impracticable (If as we must, we do act agreable to our Laws) for him to find out Some Robberies it be left to the discretion of the Deputy Governour, and Councl. when to Oblige him to pay the loss or when to excuse him. And further the Inhabitants of Fort St. David having in their Petition requested that the deciding disputes and debts between themselves may be done by Arbitrators chosen by themselves agreable to the Customs of their Casts, and the Several laws observed among them, The Board judge this highly reasonable & necessary for the Well being of the Place and therefore Resolved to indulge them therein as far as Possible. But as the Charter lately granted to the Company includes Fort St. David and that therefore Litigious People might Oblige those whom they had disputes with to leave their Families & Business to come up hither to attend their Law Suits the dangerous and pernicious Consequences of which to the Peace and well being of the Settlement are at First View Too apparent to need particularizing, It was

Deputy Govr. & Co. ordd. to examine into the Poligars duty. Pars. in the Petn. Relating to the Casts Debated.

—— *FORT ST. GEORGE, DECEMBER 1733* ——

Judged necessary that Some method Should be Found out to prevent these Mischiefs without which it is manifest all the other regulations proposed or made will be too little Effect, it was therefore AGREED to write to the Deputy Governour and Council of Fort S^{t}. David to call the Heads of the Several casts together and Order them to draw up a list of the Several rules and Customs observed among them in each particular Cast and in the General in the deciding of Disputes and Controversies among them and when so done that the heads of the Several Casts who are willing to abide by those Rules and Customs Shall sign an Indenture obliging themselves and their casts so to do and on the other side the Company by their Deputy Governour and Council Shall sign the counterpart confirming to them these Priviledges whereby all Persons who have Consented & agreed hereto will in Future be obliged to abide by the Same, and thereby the Evil Intentions of Litigious and Knavish Men be prevented and defeated in great Part if not entirely.

Agreed to write to the Dy. Govr. to or r them to draw up their Rules & Customs.

Arrack & Wine farmers Pay in the Rent.

Ramah Chundra and Sandiapa Moodelaire pay into Cash three hundred thirty five Pagodas 335 for one months rent of the Arrack and Wine Licence due 5°. Instant.

Beetle & Tobacco Do. Pay their Rent.

Ramah Chundra pays into Cash Eight hundred thirty three Pagodas twelve fanams 833. 12. — for one months rent of the Beetle and Tobacco Farm due 5°. Instant.

TO THE HONBLE GEORGE MORTON PITT ESQR.
PRESIDENT AND GOVERNOUR OF FORT ST. GEORGE &C. COUNCIL.

HONBLE SIR &C.

Your Committee to whom You were pleased to refer the Petition of the Merchants and other Inhabitants of Fort St. David with the Cowles of the Bound renters, Measuring Farmer and Poligar and the other Books, Papers & Accounts relating thereto have made Some Progress therein which they have thought fit to lay before the Board.

Before we enter'd upon our Examination we perused the Letters from our Honble Masters and have thought fitt to incert in the Appendix annex'd hereto Copy's of the third and thirty'th Parragraphs of that dated the 6th. February received this Year by the Decker as it was in Consequence of them the Honble President when he was at Fort St. David gave encouragement to the People there, to lay before him such Proposals as they thought necessary to bring about So desirable an Event, as is proposed in the Said Parragraphs.

We then thought necessary to Enquire into the present State of that Settlement of which we could not have a better opportunity to be informed than from the Remarks made by the Honble President and the other Gentlemen who were with him there; We are assur'd that within these few Years great numbers of the Inhabitants have

——*FORT ST. GEORGE, DECEMBER 1733*——

left the Bounds; The town of Mangy Copang almost depopulated and the town of Trepopolore that returned to the value of Pagodas 15000 in the Year 1727 did not last Year return above 4000 Pagodas; That great part of the Bounds lye uncultivated for want of hands, and the whole Settlement in So declining a condition that without Some Speedy releif there will be no Inhabitants left Except those only who depend upon the Company's Pay. The Farmes being Screw'd up too high was the first cause as we apprehend that Induced the Inhabitants to leave the Bounds; Those Farmes being Still continued at the Same height fell more weighty upon those who were left behind till at last the Yoak is heavier than they are able to bear; the natural and unavoidable Consequence whereof would in a very little While, have occasion'd all the revenues of the place to wither and dwindle away to nothing. The necessary standing charge of that Settlement amounting to so considerable a Sum more than the old Revenues, might induce the Company to press the Increase of the Latter, and when that was once done, the Gentlemen who succeeded one another might be cautious of hinting at a Reduction for Fear of disobliging Especially at a time when the Company were Sending repeated directions to use all Possible means to encrease the Revenues.

In an Affair of this Kind it would be of very little use to make further reflections upon what is past, the Good and Prudent Part is to take things as they are (since the Past cannot be recall'd) to propose remedy's for the present Evills and Provisions against future Events. We must observe to Your Honour &c^{a}. that the Several Cowles given the Bound Renter, measuring Farmer and Poligar are very defective in form, few or none of the Duties collected by them being Specify'd. In some they are left too much at Liberty to collect what dutys they think fitt, in others and Particularly in the Poligars which is dated in 1694 it is left to Salabad. We are humbly of Opinion that in all Cowles wch. may be Granted for the future Every duty Should be particularly Specify'd and those Cowles which are now in force, since we cannot take them away till the terms are expired, without their consent or they are otherwise forfeited; that the Prescriptive right which they claim by their Cowles Should be examin'd into and certifyed by the Deputy Governour; and a list of those dutys fixed up at the most Publick Places for the Satisfaction of the Inhabitants which would be a great Ease to them, and prevent all dispute between the Company and the persons posses'd of those Cowles about the Word Salabad. Further we propose as an Ease to any future Retrospection that when Your Honour &c^{a}. Shall have agreed what Customs and Dutys Shall be paid there, whether collected by the Company's Officers, or by others in Virtue of any Cowles, that the Particulars be enter'd in a Book a part to be kept at Fort S^{t}. David Copy to be Sent up hither with Blank leaves left to incert any alteration with the reasons for the Same or at least a reference to the Original Order.

The first request in the Petition which we Shall take notice of, is that all Goods made in the Company's Bounds may pay no more than two & a half ℔ Cent upon Exportation not excepting those which as are Sent to Pondicherry and Porto Novo. Your Honour &c. will consider whether it be for the Companys Interest to except those Goods or not. We apprehend that Paintings and Chay Goods are the cheif of what is made within the Bounds, for the French and Porto Novo Merchants, who being obliged to pay five ℔ Cent to the Company, besides the Juncan Duty to the Bound renter, they have encouraged most of those Weavers and Painters to leave Trepopilore and out of the Ruins of that Place it is that we See several Villages Erected thô upon the Same River, Yet out of our Bounds and therefore pay nothing to the Company; whereas if the Customs were Reduced to two & a half we imagine they might be induced to provide those Goods again in our Bounds. It is worth observing the Policy of the Government at Porto Novo where however Exorbitant they are in other respects the Customs on their Exports of Calico does not amount in y^{e}. Whole to three and one eighth ℔ Cent of which little more than two and one eighth ℔ Cent goes to the Government as You may Please to observe by the particulars in the Appendix N°. 2 and So unwilling are they that any Ship Should Go to Fort S^{t}. David that they allow the Fort S^{t}. David Indigo and Trepopolore Paintings to be brought overland and Shipped off Free of all Dutys.

—*FORT ST. GEORGE, DECEMBER 1733*—

Your Honour &c. have already given the Deputy Governour and C°. liberty to take off all the Dutys upon Grain, brought into the Bounds by land, upon account of the Present Very terrible Famine, which they labour under, except the measuring duty, which is kept on more to prevent the poor from being imposed by false Measures than any great Benefitt it brings in to the Company. The reason You have given for taking of the Dutys on Grain, leaves You at liberty to lay them on again whenever the Scarcity is over if You shall think it reasonable, they have requested that they may be charged but twenty cash ℔ Ox load as they used to pay before the Year 1724 Instead of two and a half ℔ Cent *ad Valorem*. This last method if we compute right, was double what they used to pay before. We must observe to Your Honour &c. that the Cheif and most considerable Branch of their Land Customs arises from the Duty on Grain. On the other hand it must be allowed to be a Greivance, and that they do not complain of it without Reason, not only as it has been laid on but within these nine years, in all which time Grain has not been near so cheap as formerly but also as Perhaps they are not Ignorant the Company receive no duty either on Paddy or Rice, brought in by land here. Whatever Releif Your Honour &c. Shall think fitt to grant them it will behove the Dep^y. Governour to have a watchfull Eye upon the Country Government, that none of the Choukedars impose any additional duty at the Moors metta's which lye without the Bounds, for it will be to very little purpose to releive them within if we cannot prevent their being oppress'd without.

As to their Complaint of the Poligar, We must leave it as they have done to Your Honour &c^a. to order therein as You think fitt, tis Possible the dutys appropriated to him having for Some Years been very Inconsiderable, he has not kept up the Number of Watchmen he was obliged to do by Cowle. The Dep^y. Governour and Council who are upon the Spot, can best inform You of the State of that matter, and if the Duty be Sufficient to pay the number of Watchmen they ought to have a Special Eye over the Poligar that he keeps them all upon duty. Should we oblige him to make good all Thefts without any distinction it might possibly induce him to relinquish his cowle, and Your Honour &c. will consider whether any Body else would take it in the condition that place is in at present; it may not however be improper Sometimes to make him pay, but that we are humbly of Opinion Should be left to the discretion of the Deputy Governour & Council according as the circumstances Shall appear to them. Further and Beyond that we think cannot be done considering the Present Constitution of the Companys Settlements. Your Honour &c. know very well the Poligar is an Officer upon the old Jentue Institution, and the Moors are So Sensible of the utility thereof that they have one in all their towns, and Villages and allow him to Exercise the Same Jurisdiction, which he was used to do before they conquered the Country. Our Laws inflict a Severer Punishment but require fuller Proof. Theirs are Satisfied with Circumstances and thô their Punishments are less rigorous, Yet are more quick and Expeditious, for which Reason it is We rarely hear of a Robbery in the country, but are very frequent under our Jurisdiction and of late more than Ever, and the Poligar here has been so Surprised at the clearing of Some of those he had taken up that he has made no Scruple to plead it in Barr to making Good the Thefts.

The next Request they Make is a matter of So nice and delicate a nature, and the good and Welfare of the Settlement depend So much upon the Resolutions Your Honour &c^a. shall think fitt to come to, that we know it has taken up much of Your Thoughts and attention. We forbear therefore to Offer our Particular Sentiments, and leave it as an Affair more proper to be debated in full Councill.

They next Request that the Tobacco and Beetle farm may be taken off as a means to bring the People again into the Companys Bounds. They alledge that duty as the Chief cause why most of the Inhabitants left the Place, and that the remainder are ready to follow them. We are informed when the Honble President was Deputy Governour He had Prevail'd with two hundred Weavers to leave Worriapollam in order to Settle them at Fort S^t. David, but when they came near the Bounds, and were informed they were to pay that Duty, they return'd back. We need look no further to observe the Effect of this Duty than Pondicherry, where Some Years ago, it

——FORT ST. GEORGE, DECEMBER 1733——

let for no more than three thousand Pagodas, during the time they took it off their Inhabitants encreased So much that when they laid it on again five or Six years after it produced from five thousand to five thousand five hundred Pagodas ℔ annum. As they have received Intimation that We intend to take it of at Fort S^t^. David they are very apprehensive it will draw a number of their Inhabitants away as they drew ours away by the Same means. Your Hon^r^. &c. have an express Order from the Company to take of that Duty from our Villages, and indeed all others that Should be thought to obstruct the calico Manufacturers Settling in them, and we doubt not it will appear to you whatever notions our Honble Masters have been flatter'd with in regard to Fort S^t^. David there will be a necessity of treating that Settlement with the Same tenderness if they hope to receive any future Benefit from it. We Shall give Your Hon^r^. &c. our Reasons for this Opinion before we close our Report.

If Your Honour &c. Should comply with the Merchants Request that none but the Weavers Shall have Liberty to purchase any Cotton Yarn from the Spinners and that the Weavers shall not carry out of the Bounds any Cotton Yarn unmanufactured it is easy to See how much both Spinner and Weaver will be under the Controule and Power of the Merch^t^. and therefore the Deputy Governour and Council must take some Real & Effectual care that the Remedy be not worse than the Disease. The allowing all Cotton and Cotton Yarn to be imported into the Bounds free of all Dutys Seems to us so necessary to facilitate the Calico manufacture that we See no objection to it, but at the Same time it will lye upon the Dep^y^. Governour & C°. to take Particular Care that the merchants do not make an Exorbitant Profitt upon the Cotton they Procure in the Country before it is deliver'd the Spinners, which they will be very apt to do if they are not well looked after.

As to the other Complaints in the Petition of Exactions and abuses, we doubt not Your Hon^r^. &c. will express Your Resentment in the Strongest terms, and will give particular directions to the Deputy Governour to have a watchfull Eye over the Conduct of all those about him, that there may be no more occasion for Complaints of this Nature. The Reduction the Inhabitants propose of the Dutys, will amount to a great Sum of Money, and we See but too much Reason to induce Your Honour &c. to comply with their Request. But all the Ease we can give them of that Sort would be of little Effect, if they are oppress'd by those who Should protect them; and if we cannot depend upon a due and just execution of the Orders and Regulations we make for the Ease of the Inhabitants and the good Government of the Place, our Labour will be in Vain.

In the Apendix N°. 3 We have incerted the Produce of the Farms, and other Revenues for the Year ending April 1732. We would rather have made the Computation for the last year. But we had not all the necessary Books and Papers for that Purpose. You will observe the amount is little more than 10000 Pagodas, the Expence of the Place the same Year was 23500 Pagodas, and the amount of the Investment made for the Company was no more than 10379 Pagodas. If there was no hopes of increasing the latter it would be for the Company's Interest to relinquish the Settlement, for any hopes there can be that the Revenues of the Place upon the Present footing will ever increase. It was an Original Mistake in the constitution of that Settlement, who ever Imagined, it was capable of submitting to the Same dutys, which are paid at this Place, a too powerfull Rival, and which will always be Struggling with all other Sea Ports upon the coast, to be the General Mart for Supplying the Country with Foreign Commoditys, the most natural use and benefit of that Place to the Company can in our Opinion be only at least Chiefly by the Exportation of its own manufacture, and for that it is very happily Scituated more in the Cotton Country, and among those Sort of Weavers who are most expert in working the Sort of Cloth, which is most wanted in Europe, and besides the nature of the Soil, productive of the Best Indigo, and the Water of the Rivers that is most fit for dying and Painting, are all advantages wch. are in a manner quite lost by reason of the Duty's on Beetle, Tobacco, Grain and other necessarys of life which have kept the Poorer and labouring Sort of People from Inhabiting the Bounds.

——*FORT ST. GEORGE, DECEMBER 1733*——

We Observe with Pleasure the very handsome Subscription at the Close of the Merchants Petition and the Sanguine hopes they have that the complying with the Several requests they have made will be effectual to repeople the Bounds with the most usefull Manufacturers. The Present very Terrible Famine may for a while retard the Success of their Endeavours, but we doubt not a few years will convince our Honble Masters that Your Honr. &c. have not given away So considerable a part of their Revenues without a valuable consideration. The Merchants have Subscribed for Four Hundred Weavers, Shevenaigue Reddee for one hundred and fifty and Andiapa the Porto Novo Merchant for one hundred & fifty more, and allowing each Weaver to make but four Peices of Cloth ℔ mensem will amot. to thirty three thousand, six hundred peices ℔ Annum, a noble addition to the Company's Investment, and we know Your Honour &c. will at a proper time acquaint them of the different Circumstances that branch of their Business is in now to what it was Some Years ago whereby they will be convinced that no means Should be left unattempted, to introduce the Calico Manufacture within their own Bounds.

But Your Honour &c. will consider besides that if we are Successfull in procuring the number of Weavers proposed, a little pollitical arithmetick will demonstrate that many other Sorts of People will attend them to Supply them with many necessarys of life, and will make out Sir William Temples remark "That when things are once in motion, Trade begets Trade, as Fire does Fire, and People go much where much People are already Gone", altogether cannot be Supply'd from the Inland Country, but they must have Recourse to an Importatiõ by Sea and if the Customs do not appear upon their Books, it will at least upon Ours as in all likelyhood they will cheifly be Supply'd from hence, where the Customs of Five ℔ Ct. having been once paid, will be exported thither by Certificate, Porto Novo had never been So considerable as it is now for the Calico Manufacture had it not been for the Severity of the Taxes at Fort St. David ; so true it is, that whenever trade is clogged or constrain'd in any Government it will retire to others, where it may have greater Ease and be more favourably used, which happiness at that time it could no where find so well as at Porto Novo.

Further we are to hope when the Famine is over, and the duty upon Beetle, Tobacco & Grain is taken off, the Inhabitants being able to live cheaper the Depy. Governour & Co. may find an opportunity to reduce the Price of Labour in many Particulars, for those Several dutys having for the most part been paid by those who were employ'd for the Company, It will not be difficult to make out that what they receiv'd with one Hand they payd with the other.

We need not have detain'd Your Honr. &c. thus long, upon the reasonableness and necessity of granting the Several Requests in the merchants Petition, because they are cheifly Your own Sentiments. But the Company's Interest is so much Concerned in this Affair, that we thought we could not be too full and Particular for their Satisfaction and Information ; and now We have only to add the Assurances of our Sincere Wishes and Endeavours in conjunction with Your Honr. &c. that the Methods which are proposed may have a Speedy and Real Effect, to answer the desired End, as we believe there is nothing that will be more acceptable to our Honble Masters, or more Agreable to Your selves. We are,

Fort St. George

Honourable Sir &c.
Your most obedient Humble Servants

Copy of the third Parragraph of the General Letter to Fort St. George ℔ Ship Decker dated 6th. February 1732.

The Investment being a matter of the highest Consequence and what we are very desirous to promote by all possible means and having good reason to think that the Tobacco and Beetle duty collected by the Farmers of Egmore, Trevitore & other Villages, if any Such there are may discourage the Weavours, Spinners and others from

——FORT ST. GEORGE, DECEMBER 1733——

Settling there, We hereby direct y^{t}. the amount of those dutys be deducted from the annual rent paid by those farmers upon their Entering into an Obligation under a Severe Penalty not to gather them of y^{e}. Inhabitants; hereby we flatter those necessary Manufacturers may be induced to come and Settle within those Bounds in great Numbers, and that Several of the charges in Tomby Chitty's acco^{t}. of the prime cost of his Calicoes, will be avoided; moreover We have this Affair So much at Heart, that we are unwilling those Places Should be let out at all, but kept in Your own hands, and Publick notice given that all the aforesaid usefull Sett of Men who are willing to come and Settle there Shall be free of all dutys whatever for a fixed term, but as You are the Best Judges how far this must operate, We leave it entirely to You to do therein as You think fitt.

Copy of the thirtyth Paragraph of the Same Letter.

The Bounds at Fort S^{t}. David being very Extensive and the Natives no doubt choosing to live under our Protection as Hereby they are freed from the Oppressions of the Country Government, We are inclined to think if Proper measures were taken a considerable number of Weavers might be allured to take up their constant Residence within our Limits there; We therefore earnestly recommend this matter to you, as the accomplishing of it will be a very agreable Service, and if it Shall be thought necessary to Ease the Inhabitants of any Small Tax or duty We agree thereto in order to bring about so desirable an Event. These measures We think are the more necessary at this time of day, when we have so many Rivals upon Y^{r}. Coast, who of late Years have Sufferd us to have but a very Small Share of the Investment; and when once those manufacturers are Settled there, it must be Your care constantly to Supply them with Cotton, Plenty of rice and other necessarys of Life, and have a Watchfull Eye over our Servants to prevent all Engrossing that so no uneasyness may arise upon that head.

At a Consultation

Present

Thursday 20th. George Morton Pitt Esqr. Governour Presidenti.
Richard Benyon.

Augustus Burton. Nicholas Morse.
Francis Rous. William Monson.

West Coast Committee's Report with resolutions thereon.

The Committee appointed to inspect the Papers and accounts received from Fort Marlbrô ℔ Ship George deliverd in their Report which is read and enter'd after this Consultation and the Board came to the following Resolutions.

Resolutions.

That it appears necessary a Sum of money should be always kept there, Sufficient to answer the Payments for their Investment and Expences, and that the Cash Should not be reduced so low, as that an Accident happening to the outward Bound Ship might occasion them to lye under any difficultys, with Respect to the well carrying on of their Business, which would have been the Case this Year, had not the Harrington

arriv'd Seasonably with a Supply. To Borrow of the Mallays is Sometimes impracticable and when it can be done, is always at a very high Premium. That it be therefore Recommended in our General Letter to Europe that Some further Sum may be Sent thither, as their Investment is now likely to encrease and the demand on that account the greater.

That as to the Petition of M^r. Rigg, relating to his damaged Goods freighted on the Companys Ship George in her Voyage thither, We are of Opinion he can have no claim to any Satisfaction according to the known Custom and Usage of India, because the Easy terms of the freights here are the cheif consideration that no damages are ever allow'd, and the Same Practice is used in all the freight Ships from Surat and Bengal to Mocha, Judda, Persia and all Ports to which they go, an Instance of which may be [seen] by the Enquiry made in President Harrisons time in Consultation of the 13th. September 1715, and thô President Macrae had allow'd him what M^r. Rigg intercedes for, Yet that is without a Precedent, and cannot be esteem'd of weight Sufficient to determine the Board in the Present Case, because upon a full Examination into the Affair, it is found to be contrary to all Custom in Country Ships, however it might at that time escape the observation of the Gentlemen at the Board. Resolutions on the W^t. Coast Committee's rep^t.

That the Settlements be Supply'd with the Quantity of Turn'd out Long Cloth and what Lamp Oyl may be necessary for their Expence. Do.

That the Corporal and Buggueezes who were Station'd at Layé to take care of the Paggar, and by their negligence in their duty, did not Secure the Company's money from being Stolen and Lost, be dismissed the Service. Do.

That further Directions be Sent them to encourage the Planting of Coffee. Do.

That for the Reasons mention'd in the Committee's Report the Deputy Governour and Council do put in Practice the method therein Proposed, for the Receiving the Pepper at Layé, Tallo & &c^a. Places, in order to prevent the Great Charges that will always attend a constant residency, and for the greater Security of the Company's Effects. Do.

That Enquiry be made concerning Salt Petre at Manna, and a muster be Sent hither with an account of its Value there, and what Quantity that Country may Produce. Do.

That in future Some Ophium be always kept in Store to Supply the Licence there, that the Companys Revenue may not Suffer for want of it as it did the Last Year, occasion'd by the Long and unhappy Voyage of the George. Do.

That Ten Arabs be Sent over to relieve as many there, who have Served their Contracted time, and are desirous of returning, Likewise Some Topasses, and that the Number of Burgueeze's be Reduced. Do.

General Letter N°. 128 from the Deputy Governour & Council of Fort S^t. David dated 17 Ins^t. read, inclosing an Intercepted Letter of M^r. Thompson's to the Sweeds remaining at Porto Novo, and advising what they had done in consequence thereof. Genl. Letter from S^t. David read, wth. an Intercepted Letter of M^r. Thompson's.

The Committee for examining of the Estimate of the Expence of the necessary Repairs at Fort S^t. David inform the Board that the Same is now drawn in a proper Form, & agreable to the Report they deliver'd in Consultation of the 26th. Ult^o. AGREED therefore to order the Dep^y Governour and Council to set about them as Soon as Possible. Committee on the Buildg^s. at F. St. David rep^t. that is new drawn up in form. Orders to be sent thither to begin upon it.

The Sheriff pays into Cash One hundred & Ninety Pagodas 190 for Fines levied on ten Persons Summon'd upon the Petty Jury the last Sessions who refused to be Sworn, twenty Pagodas each is two hundred, deducting his Commission the Remainder is the Sum now paid in. Money P'd in by the Sheriff for fines on Persons who refused to be Sworn on the Petty Jury, Paid.

To the Honourable George Morton Pitt Esqr.

President & Governour of Fort S^t. George &c. Council.

Honble Sir & Sirs

In Obedience to Your Orders we have examin'd and Perused the Several Papers and accounts sent from Fort Marlbrough by the Last return of the George, and Shall now offer what we think Material for Your Notice, distinguish'd under the Usual heads.

First concerning Shipping.

The Hopewell Brig^t. arrived in their Road the 5th. March, and deliver'd the Salt contracted for.

The George imported there the 9th. June, and was dispatch'd the 1st. of August; her Stay would not have been so long, but for reasons enter'd in Consultation of the 20th. July, and We are of Opinion it was highly necessary.

In the Same Consultation is a Request of Mr. William Rigg concerning Some Goods freighted on that Ship from this Port, which are beleived to have been damaged by a Leak in her upper Works. The loss, he there Say's, is Six corge of Blue long Cloth entirely Rotten, and not fit for Sales, on which he desires an abatement of he freight and Customs, out of the Remainder of his Goods laden on Board. We mention it here for Your Honour's &c^a. determination.

The two Small Sloop's have not Yet been Compleated, the Planks for their Sides being wanted, but as the George carry'd them, we Suppose the Gentlemen there will take the Opportunity of the assistance of the Europe Ship, and finish them and employ them in all Such Services where Country Boats are not absolutely necessary, agreable to the orders from Europe.

In the month of October a Tombangan with 30 Bahar of Pepper was lost on the Bar of Layé, occasion'd as it appears by being overladen, there was also one of the Company's Slaves drown'd in endeavouring to assist the Vessell; The Board have on this occasion made an order that no Tombongon hereafter shall carry above twenty Bahar, but that Order will not at all times answer the design of Preventing Such accidents, because the Tombangons are of Different Sizes, So that even the quantity they have Limited may be too much for Some, and therefore it Seems requisite that Great care should be taken by the Persons who are employ'd in Shipping the Paper [*sic*] that each vessel should carry her Proper Lading, and not let the Company be liable to Suffer thrô the Avarice of the Master in order to get a larger freight, as was the Present Case, as the Bar at Layé is not very deep we beleive it may be most Proper that the Sloops Should be Sent to lye off the Barr, and the Pepper Sent in Small Boats on board them, which may Save the Risque of Losing a Large quantity of Pepper in going over a dangerous Barr.

——*FORT ST. GEORGE, DECEMBER 1733* ——

SECONDLY GOODS FROM EUROPE OR FORT ST. GEORGE.

The Salt by the Madrass Gally was reported in Consultation of the 10th. August
Ca. Ba.
to be 17. 539 Bamboo's, and accordingly so invoiced on the Enfeil'd to Moco Moco, but on the Residents advising of its coming out far short of that Quantity, producing
Ca. Ba.
no more than 11. 46, the deficiency's was enquired into, and found to arise from a mistake in the measurage on Board the Gally and from her leak's in the Passage, as enter'd at Large in their Consultations of the 26 January last, and the accomptant was order'd to adjust the difference, and we find 4 Coyan was wrote off to Profit and Loss but that seems not to be very correct, for if the Salt came out 11.46 at Moco Moco, no more than 3. 754 should be wrote off allowing the head of Salt as it now Stands charged for no more than 15 Coyan ℔ Madrass Galley, thô we don't See any Reason for fixing it at that Time, the quantity of Salt to 15 Coyans when the Store-keepers Report made it 17.539 Bamboo's.

We Beleive 50 Corge of Long Cloth will be absolutely necessary to be Yearly sent for Payment of Pepper in Anack Soongey according to Contract; for we observe the Malays were Very importunate with the Resident of Moco Moco in that Respect, till the George arriv'd with the Supply, and the encrease of Pepper will very much depend on a Punctual complyance, and faithfull delivery of it, amongst the Planters for the Produce of their Grounds.

Lamp Oyl is very Scarce and dear, and if Your Honour &c. supply's them from hence it will save Some Expence.

THIRDLY INVESTMENT.

In Consultation of the 12 of February is a Representation at large by Daniel Coles, a Person employ'd at Laye to weigh of, and pay for the Pepper receiv'd there, concerning a Robbery committed in the house he dwelt in, and of the loss of 92 Dollars of the Company's money, the man Suspected of the crime appear'd and was examin'd, but there lay no Proof of any weight Sufficient to fix it upon him, and the Gentlemen there are of Opinion they Shall never be able to discover who committed the fact; This accident appears to us to have been entirely owing to the not keeping a watch in the Night, and most certainly Coales was very much wanting in not keeping the Bugguezes to their duty, which might have Prevented it, nor can a Corporal and 4 Bugguezes be excus'd, for Suffering a house to be broke open within a Pagar (or Fence) of which they had the Charge, the Young man and Bugguezes are said to be in no Circumstances to make good the loss, and the Gentlemen recommended him to Your favour, and desire Your Consideration. and advice in the Affair, which We presume Your Honour &c. will please to grant them.

Some People from Cawoor, a Port to the South[w]ard have offer'd themselves to the Company's Protection, and to Plant Pepper & at their Request there was a Tombangon sent thither to fetch what Pepper they had on hand, which was 14 Bahar, the doing of which, and Sending Bourseraden thither, with the Instructions as enter'd on the Consultations in order to encourage the People, and gain them to the Company's Interest, were very Proper, and is agreable to their directions in all Such Cases. At this Place there was a Sloop of the Company's drove a Shore sometime ago, and they have taken this Opportunity to Recover her but whither the Charges of Repairing her will answer is not Said.

The making the Cart Road from Tallo was a necessary work, as it will Contribute to the Ease of the People in bringing their Pepper to the Shedds.

The many difficultys the Planters of Pepper about Layé, and those Parts to the Southward Saloomah, Tallo & Allas labour'd under of getting their Pepper to the Scale, the People of the Former having a dangerous Bar to Ship it off, frequently met with accidents, & a whole Years produce of their Grounds lost thereby, the others a Large tract of Ground to carry their Pepper over, which Lead the Planters to Sell the Pepper at a very low Rate Sometimes only 5 Dollars ℔ Bahar Prefering that Low

——FORT ST. GEORGE, DECEMBER 1733——

Price to the Hazard and Loss of time of conveying it to the Places for Receiving it, as this was a very great discouragem^{t}. and there could be little hopes of their heartily Setting to work on Such ill terms, a Remedy was Sought for, and it was Propos'd to this Honble Board Some Years Since that Shedds might be erected at Layé, and the Places abovementioned to which every Planter might once, or more in a Year, bring the Produce of his trees, and thereby have the Full Price deducting only the Charges it must cost the Company to bring it down from those places, which is more or less, according to y^{e}. distance at Laye, it was Settled at 2 Dollars, and the Carthire is also at a fixed Rate. It was on these Considerations that Your Honour &c. were Pleas'd to allow the Building of those Shedds, and it was not the first Intention to keep any Persons there, but only at Proper times to Receive and pay for the Pepper, and Send it away, either to Fort Marlbrô or Sellabar, and therefore we think the keeping People at Laye the Greatest Part of the Year at an Extraordinary charge, to be deviating from it, and unnecessary. The Board there observing the Charges to Swell, did the 10 November last make one good Order that no more Should be allow'd the Person Sent to Layé, but 10 Dollars ℔ Month for his Diet, and Expences, but they did not enter further into the Affair, or else they must have observed that there were Several Inco[n]veniences, and Charges to engage their Consideration, for with the Person are Sent Bugguezes & Slaves which occasions a Want of the former at Marlbrough, and obliges others to be hired in their Rooms, and the Slaves must frequently have nothing to do, for its certain in one month or thereabouts all the Pepper that Country Produces, may be Received and garbled as may be observed by the dispatch made at Ippue annually.

We Shall here offer our Opinion to Your Honour &c. in this case, as what we think may be the most Proper Rules for their Conduct, and for the Interest of the Company.

That a Shed, or Godown be always kept in Repair at Laye, Tallo & Manna to receive the Pepper that is brought, and to Shelter it from the Weather.

That at the Proper Seasons of the Year, according to the Scituation of y^{e}. Countrys, either twice, or more as shall be found necessary, timely notice be given the Planters in Such districts, by an order to the Pangaran, Dupatty or Cheif, to bring the Pepper to the Godown, in order to weigh it & receive the Value.

That a Person be Sent with money, and the necessary assistance to Receive it from the Mallays, in which he Should be as expeditious as Possible, that the Planters may be detain'd as little as may be from their homes and Business, that he treat with all good usage, and pay them justly for what Pepper they Bring, that he do immediately Ship off what shall be Received from Laye, and Manna, (Proper Conveyances being Provided in time) and Send up the other Talloo & Allas by carts; and that as soon as the same is compleated he do Repair forthwith to Marlbrough.

That only at Manna, any Guard of Bugguezes be kept that being on y^{e}. Frontiers, and amongst a People who have frequent Divisions amongst them Requires it, on account of Intelligence, and to keep them in Peace, and that the care of the Shedds at Layé and Tallô be recommended to the head of the Dusan, when the Company's People are not there on Business.

We cannot but think that this method will answer all the designs Proposed for the Benefit and ease of the Planter, and be of this advantage to the Company, that it will

First, Save them Some Expences in maintaining a Person Several months, hiring of Bugguezes extraordinary, and keeping Slaves there sometimes when they might be employ'd elsewhere.

Secondly, That the Company's Effects will not be expos'd to any accidents by fire or Insurrections, which may happen when a Godown is full of Pepper, and any of the Natives are inclined.

Thirdly, that the attendance that the person will have of Bugguezes, Arabs & Coffree's during the time he is employ'd will be a Sufficient security against an

——*FORT ST. GEORGE, DECEMBER 1733*——

attempt to rob & Plunder for we believe the money carry'd to Manna was the Temptation to the People to attack the Pagar and therefore it Seems unsafe to trust any Sum of Money, or Effects at So great a distance, without a force capable of Resisting any designs of that nature.

This leads us further to Say that it may Prove of ill Consequence to Send any large Sum, by one or two Bugguecezes to these Places who may take the Opportunity of going away with it, instead of Carrying to the Place appointed, or may be Set upon in their Way, and Robb'd of their Charge.

There is an encrease of Pepper this Year in Arrack Soongey, Layé and Manna and the Parts about Marlbrough and we doubt not the Gentlemen will take all Opportunity's to encourage the Planting, that there may be Still a larger quantity, the letter to the Proateens of Single demoon to put them in mind of their Promise; and the Consequence of their Neglect was very Proper, and Such circular Letters may have a very Good Effect, also the Returning the Sultan thanks in the Company's name for the great care he had taken in his country to improve it for their Benefit.

Pangaram Munko Rajah whilst at Crocup, writes that the Datto of that Place acquaints him most of his People will not plant Pepper, & that he will enquire into it, we Suppose Some measures have been taken with them to oblige them to their duty, or else it may be requisite to make an example of them by demanding the fines due for their Neglect and obstinacy, and as the Generality of the People have for Some Years past Shown a hearty Inclination to comply with their Agreements, whereever the Contrary Shows it Self, it Should be discouraged to the utmost, and the deli[n]quents Suffer for their ill Behaviour.

When the Persons Return from their Survey's, and have laid the accounts of their Journey before the Board, such who have neglected their Plantations, or not conformed to their obligations, should be immediately taken notice of; and on all occasions those who have exerted themselves should be told their Services are acceptable which may be a means to keep up a Spirit of Industry amongst them.

The Sugar & Arrack Plantations have Produced about 30 Leagers of arrack for the Year ending April 1732 exclusive of the allowances to the Chinaman & slaves	$ 920	3	98
4 Pecul of Sugar to Dollars	40	—	97
The whole	$ 961	—	95

and we find the disbursements on that head for utensils, Charges of Maintaining Slaves & Repairs to be 1868. 3. 1 and that 982 Dollars are wrote off to Profit & Charges General for that Year, which would have been Something more, if the Arrack from October, had been valued as usual at 24 ℔ Leager whereas it was from that time at 36 ℔ Leager, they advise that this small quantity was occasion'd by the want of Ripe Canes, but that they are now cutting, & the work is Going forward very well again, they have sent for a still, & Yellow Canes from Java, which they expect by the Prows from thence, with which when the Ground is well Stocked, & the assistance of the twenty two Slaves, sent thither in January, they Beleive the Business will be carry'd on to a better Purpose than of late, Your Honour &c. will hear by the Return of the Ship next dispatch'd to them, what Progress they have made on this new tryal, & be able to judge how far it may be for the Company's Interest to go on with the Plantation.

They have not advised if any more Persons (besides one mention'd in their former Letters) have begun Plantations of Coffee, but we find they have advanced money to a Java Naquedah to bring one, or more Coffee Planters, and we are informed by those that are come from thence that there are Several Gardens planted about Marlbrough, the Company having given full directions about it, we Suppose they make it Part of their care to See it Set about and encouraged.

We understand that there is Salt Petre at Manna, it may Perhaps prove of Service to the Company to be well informed of w[t]. quantity may be procured there and at what Rate, and that a Muster be Sent here for a tryal.

——*FORT ST. GEORGE, DECEMBER 1733*——

Fourthly Country Government.

Mala Ragoon & his Son, have been very troublesome at Manna for Several Years, the father in the Year 1729 returned from Bantam, and endeavour'd to create some disturbances, under the Countenance of an Ambassador from the King, whom he accompany'd, & endeavoured at an authority in the country, pretending to have been invested with a Power from him, he was Sent under confinement till he was taught to know the English Government did not allow any appointments of his Majesty of Bantam ; on Promise of due Subjection & good Behaviour he was Releas'd but in M^r. Newcombes time again relaps'd & with his Son endeavour'd to Murder the Pangaran of Manna, but the wound they gave him did not Prove mortal, they were thereupon order'd to Prison, & after some time Pardon'd, however regarding little the promises they had made, and the Caution given them to be quiet, they began again this Year to be troublesome to the Pangaran, & insolent to the Depy Govr. who had Sent for them in order to Settle matters between them, to preserve that Part of the Country in Peace, they have Sent them Prisoners on the Hopewell, we think the Sending them off the Coast very proper on that acc^t. but that they Should have Chose S^t. Helena, where they might be obliged to work for their Maintenance.

The Cultivating a good Agreement with the People of the Neighbouring Parts of the Country, is always to be done, & the Dupatty of Laboons journey to Marlbrô may be of Service, especially if he is inclined to let Such of his People who are willing to plant Pepper [come] into the Marlbrô districts, on all such occasion a due Regard to the Company's orders for dispatching the Business without delay, will Save y^e. expence of maintaining a number of People.

The Country is in Peace, & we observe that due care is taken to adjust the Several differences that arise amongst the Natives wch. is y^e. only method to continue it So.

Fifthly Fortifications, Buildings, Repairs & Revenues.

They dismiss'd y^e. Receiver of Materials as Soon as the Servants on the Enfeild arriv'd & a monthly writer in February.

In our Report last Year we gave our Opinion Relating to the Pepper Shedds to be erected at the different Places, with what we judged might be Sufficient for the Cost of them, & if Y^r. Honour &c. shall please to determine, that the Pepper shall be rec'd in the manner mention'd under y^e. head of Investment, there will be no occasion to put the Compy to the charge of other out Houzes as they have already been at Layé.

They have agreable to the Leave given them purchased M^r. Newcomes Brick house & Godowns for 1000 Doll^rs. which will be very usefull to the Company & are at a very reasonable Valuation.

There is a Stop put to the Purchase of Bricks on the foot of the Agreem^t. with Peterson, and if they cannot procure them on Better terms, they propose to make no more till they receive Your Hon^r. &c. orders at Present they Say that if their Slaves were put to that work other more important Services must be neglected because those they have are fully employ'd, which is a very Good Reason for purchasing of Bricks & they urge that it would come out dearer to the Company, than the buying them at 3 dollars ℔ thous^d. But this must be a mistake, Since if the Slaves were well looked after, they certainly could do the work on as Good terms as others, & we cannot think the Bricklayer by any means a proper Person to take them off, Since there is one Cheeck lost in the Receiving of those that are Good.

In the Pacquet is a Survey of the Buildings at Mocomoco with a Calculate of the cost of materials for the rebuilding the same, & we join in their Opinion that the West Building are not necessary, Your Hon^r. &c. have already advis'd the Company of the State of them, & desired them directions which may be expected by the next Shipp^s., we Shall therefore only Say that we beleive it will be for their Interest that y^e. new Building Shou'd be chiefly made of Brick, and a Wall instead of Pagar Sticks, because all erected of Wood are continually decaying, and repairing this Place has Since the year 1718 cost a very great Sum of money, & had it been laid out in Proper brick Buildings, the Compy would now have had no occasion for this Charge, nor for many years to come.

——*FORT ST. GEORGE, DECEMBER 1733*——

In Consultation of the 5 June, is an estimate for Building y^e. new Hospital at Marlbrô amo^r. to Doll^rs. 3873. 3. — & an order made for purchasing Such Materials for that use as were not in Store wch. we Suppose is according to the Plan left by M^r. Newcombe.

The Lodgings for the Comp^ys Servants are not finish'd, we understand for want of Nails.

The arrack & Ophium Licences were put up Seperately this last Year, & are let at Dollars 255 ℔ mensem wch. is 50 Dollars ℔ month more than the last Rent, for want of the latter 95 Dollars ℔ month was agreed to be allow'd the farmers, till such time they were Supply'd out of the Hopewell, wch. was upwards of three months, as this happend by the Long & unsuccessful Voyage of the George, it cannot be helped, but to prevent y^e. want of it in future, & thereby a Loss in the Revenues, it Seems necessary always to have a Chest or 2 in Store, in the deduction for the time there was no Ophium, Doll^rs. 407. 2. 33 were allow'd the farmers as by their Journal Page 80, but that Seems to be too much for the Rent is there said to ccase the 30 Nov^r. & to commence the 10th. April. But as the Hopewell arriv'd the 5 March, & ophium was order'd to be Purchased y^e. 6 of that Month, there can be no Reason for making y^e. 10 of April the time for y^e. Renewing it, therefore this ought to be explain'd, & if an error to demand of the farmers the difference.

The Resident of Mocomoco Should always account monthly for the Arrack d'd the military, and not leave it for 2 or 3 Months and then bring it in, as we observ'd he did tell the Dep^y Govr. & Co. orderd the Contrary, the Sales to them for that time are very Small indeed, if it proceeds from the Sobriety of the People now there, it is very well, however it must be his care that this kindness of the Comp^y in Supplying the Military at an easy Rate, should not turn to their Own disadvantage, & that no Person do presume to Sell any Liquors to them; By an application to the Sultans the Malays may be always prevented, & the other there, are under the Residents immediate directions.

SIXTHLY COMPANY'S COVENANTED SERVANTS & MILITARY.

The Honble Company have given their Orders in Relation to M^r. Everest's Salary by the Harrington, & therefore the Paragraph in the Letter now Rece'd requires nothing to be Said on what is there Offer'd.

They desire Y^r. Honour &c. will Send them 10 Arabs to Releive y^e. Same number there, according to the Agreement made with them for 3 Years, & if those who are now to be entertain'd could be engaged with for a Longer term, it will save the Comp^y Some Expence.

There were Some Bugguecezes extraordinary entertain'd when the Pagar of Manna was attacked, & Some Sent to Layé whom we suppose are to be again discharged & as we have Offer'd our opinion to Your Honour &c. that there is no occasion to keep Bugguecezes all the Year round at Layé & Tallo & those Places for the Reception of Pepper, we think the Number they now have may bear a Reduction.

SEVENTHLY ACCOUNTS.

Under the head of Adventure to Layé we find Dollars 1856. 3. 54 carry'd to the Credit as the Ball^s. of that account 30 April last but no Particulars mention'd in the Journal of w^t. it consists, wch. had it been explain'd, as the head of Sillebar is, would have Shown at once how it arises, in the letter from Daniel Coales about y^t. time he advices of his having about 100 Bahar of pepper & requests more money, So that allowing the 100 Bahar paid for at 8 Dollars ℔ Bahar it amounts to 800 & looking further, we observe that thô the Prow was lost in October wth. about 30 Bahar of Pepper Yet that Affair is not adjusted, nor nothing wrote off wch. should have been done, after weighing the Pepper that was found on the Shore, & then writing of the Remainder to Profit or Loss, but Say the 30 Bahar cost 240 Dollars, the difference between 1040 & 1856. 3. 54 remains to be adjusted & we Reckon must consist of Buildings, Repairs & Charges of maintaining People there, and Should always be Settled once a Year, or else it will occasion great Confusion. By this sketch Y^r. Hon^r. &c. will observe the Charges of this Place are too great to support a Constant Residence in it or any other.

——FORT ST. GEORGE, DECEMBER 1733——

Rept. of the Years Expences deliver'd in by the Accompt.

The Accomptant delivers in the General Report of the Expences and Revenues of the Coast for the Year ending April 1733 whereby it appears that the Expences in Madrass are increas'd four hundred and sixty three Pagodas, those of Fort St. David decreas'd five hundred and fifty four, and those of Vizagapatam four hundred and fifty eight, But that the Maddepollam and Ingeram Charges are increas'd eleven hundred and twenty one Pagodas, that the Revenues here are decreas'd Seven thousand five hundred & eighty Pagodas, & those of Fort St. David encreas'd five hundred & Sixty. The causes of which being examin'd into were Found as follow's.

——*FORT ST. GEORGE, DECEMBER 1733*——

THE EXPENCES OF MADRASS increas'd Viz^{t}.

In the Article of Charges Hospital for a larger Quantity of Medicines and of Cloaths for the Sick than the former Year.
In Charges Extraordinary new entering Soldiers Expences when Imaum Saib was here, and for head money to the Surgeons of the Ships for new men arriv'd.
In Account Presents for what given the new Nabob and Duan on their being confirmed, and presented to Imaum Saib when here.

THE EXPENCES OF FORT S^{T}. DAVID lessen'd Viz^{t}.

In the Articles of Salary and diet money, and
In the Account Presents, that head having been encreas'd the former Year when the Nabob passed the Bound's.

As for the other articles of Increase and Decrease the Particulars of them must be examin'd from their Books when they arrive.

The Expences of Vizagapatam are decreas'd in almost all the Articles.

As for the Encrease of the Expence of Ingeram and Maddepollam, it is occasion'd by resettling M^{r}. Graham at the Latter of those Places.

Of the Revenues here the Land Customs are encreas'd about nine hundred, and the Mint decreas'd about fifty, the encrease of the former chiefly occasion'd by the Paintings for Siam & Manilha. The causes of the decrease of the customs this Year are the Smaller Importation of Coral there being in that Single Article four thousand Seven hundred Pagodas, and the Maccao Ship having lost her Passage the last Year; which with the Lesser Importation of Elephants & Elephants teeth & some other Smaller articles make up the difference, thô the Importation of Raw Silk & Peice Goods from Bengal are encreas'd near Seventeen hundred.

The Accomptant also reports That when M^{r}. Palmer return'd from Pegue, he demanded of him three or four times the Payment of his Ballance, and at Last being very Pressing with him for it, he had made an Elopement and was not to be found.

he reports that Mr. Palmer Owes the Compy Money wch. he Press'd him often for, wch. Occas^{d}. his Elopem^{t}.

HONBLE SIR & SIRS

We have received Your Letter dated the 4th. Instant wherein You demand an account of what fines have been Levied by this court, Since the Publication of the Royal Charter, which was in the month of August 1727. You also demand Payment of the Same on Account of the Company by Virtue of a Grant from his Present most gracious Majesty bearing date the 17 November 1727 (Copy whereof we then received).

Whereupon We have caused the account to be inspected and now Lay before You a list of the Fines impos'd Since the Said time which amounts to no more than Pag^{s}. 259. 12. But the last Article of 50 Pag^{s}. due from Ramah Chundra we have not received, The Honble the Court of Appeals having thought fitt to put a Stop to the Proceedings of this Court in that Case.

And for as much as we found it had been the Custom of the Mayors court as well before, as Since the Present Establishment to apply the fines levied by the court to the altering, repairing and Beautifying the town, the Island, the Town Hall & other Publick Buildings, as well as other Publick Expences, we have accordingly disbursed the Same on those Articles Viz^{t}. Charges Repair^{s}. the high way on the Island

If the Board do insist upon it, we are Willing to Offer. But upon this occasion we are Lead to represent to You that the Revenues appropriated for the Ordinary and necessary Expences of the Court have so far failed us of late Years that our cash is quite Exhausted, and we are now actually in Arrears.

We hope this Will be Satisfactory to the Board. If not we desire the matter may be Referr'd to the Company, and on this occasion we cannot but further remind the Board that the old Court laid out so large a Sum as upwards of two thousand Pag^{s}. in Repairing And mending the High Ways on the Island, and raising and Securing the Banks of the River all around it, which has been another great cause of our Present necessitys, and We hope will be an Inducement to You to assist us with a Seasonable Supply for the Pressing Services remonstrated to You in our Letter of the 13 February 1732/3. Signed this 27th. Day of December 1733, in Fort S^{t}. George in the Town of Madrasspatnam by Order of the Honourable the Mayors Court.
